### **Corporate Environmental Reporting**

Leanne J Morrison, 2019-07-04 This book explores corporate environmental discourse by examining a sample of corporate environmental reports through the lens of environmental philosophy. Findings include the predominant use of a dualistic approach towards nature which highlights the perceived separateness of companies from the natural world. Also explored are the corporate articulations of interconnectivity and transcendence, two philosophical approaches that are also in common use in western culture. The expression of these themes reveals the discursive underpinnings of a harmful relationship with nature. Exploring the ways in which discourse informs corporate relationships with nature allows for an in-depth diagnosis of current environmental problems. The history of environmental philosophy demonstrates how some powerful philosophical approaches have shaped the western relationship with nature over time and continue to do so through corporate environmental reporting. *Corporate Environmental Reporting: The Western Approach to Nature* demonstrates how corporate reporting is used to reduce the perception of the corporate responsibility and contributes to the erosion of broader cultural restraints against the harmful treatment of nature. As such, discourse is integral to the survival of the world which we and other members of our biotic community are utterly reliant on. It shows the latest state of knowledge on the topic and will be of interest both to students at an advanced level, academics, and reflective practitioners. It will be of interest to researchers, academics, and students in the fields of accounting, management, environmental philosophy, and sustainable management. *Moving Forward After the National Transportation Safety Board Report* United States. Congress. House. Committee on Oversight and Government Reform. Subcommittee on Federal Workforce, Postal Service, and the District of Columbia, 2011

*Managing Humans* Michael Lopp, 2007-10-18 *Managing Humans* is a selection of the best essays from Michael Lopp's web site *Rands in Repose*. Drawing on Lopp's management experiences at Apple, Netscape, Symantec, and Borland, this book is full of stories based on companies in the Silicon Valley where people have been known to yell at each other. It is a place full of dysfunctional bright people who are in an incredible hurry to find the next big thing so they can strike it rich and then do it all over again. Among these people are managers, a strange breed of people who through a mystical organizational ritual have been given power over your future and your bank account. Whether you're an aspiring manager, a current manager, or just wondering what the heck a manager does all day, there is a story in this book that will speak to you. *CMJ New Music Report*, 2002-05-06 *CMJ New Music Report* is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend-forward retail sales. *CMJ's* trade publication compiles playlists for college and non-commercial stations, often a prelude to larger success. *Identity, Community, and Learning Lives in the Digital Age* Ola Erstad, Julian Sefton-Green, 2012-10-22 Recent work on education, identity, and community has expanded the intellectual boundaries of learning research. From home-based studies examining youth experiences with technology to forms of

entrepreneurial learning in informal settings to communities of participation in the workplace family community trade union and school research has attempted to describe and theorize the meaning and nature of learning Identity Community and Learning Lives in the Digital Age offers a systematic reflection on these studies exploring how learning can be characterized across a range of whole life experiences The volume brings together hitherto discrete and competing scholarly traditions sociocultural analyses of learning ethnographic literacy research geo spatial location studies discourse analysis comparative anthropological studies of education research and actor network theory The contributions are united through a focus on the ways in which learning shapes lives in a digital age
