Koukourakis,Dimitra Desse,Marios Papadimitriou,Manousos Konstadoulakis,Anna Zygogianni,Christos Papadimitriou,2022-09-18 Pancreatic ductal adenocarcinoma is a highly aggressive malignancy with a poor prognosis Effective treatment with acceptable outcomes is yet to be found with chemo and radioresistance comprising major impediments towards this goal Although upfront surgery is the established therapeutic approach for resectable and borderline resectable disease neoadjuvant treatment has recently monopolized the interest in clinical trials This also applies to locally advanced pancreatic adenocarcinomas that could potentially be rendered operable Chemotherapy and chemoradiotherapy are the most utilized therapeutic modalities in the neoadjuvant setting while immunotherapy and targeting agents have been gaining significant attention This critical review focuses on the clinical experience gained from retrospective and phase II III randomized trials reporting on the outcomes of neoadjuvant chemotherapy and chemoradiotherapy for pancreatic adenocarcinoma Moreover the ongoing trials including those that involve immunotherapy and targeting agents are summarized      **Molecular Biomarkers for Gastric Cancer, 2nd edition** Kecheng Zhang,Seungwan Ryu , Fenglin Liu,2024-07-31 Gastric cancer GC represents a serious health problem on a global scale Despite some recent advances in the field the prognosis in GC remains poor A better understanding of molecular biology which would lead to improved treatment options is needed Many potential biomarkers of prognostic significance have been identified However inhibition of only HER2 protein has led to a modest survival benefit A deeper understanding of the pathogenesis and biological features of gastric cancer including the identification and characterization of diagnostic prognostic predictive and therapeutic biomarkers hopefully will provide improved clinical outcomes This Research Topic aims to provide a comprehensive overview on recent progress in emerging molecular biomarkers for gastric cancer We welcome

the submission of Review and Original Research articles covering but not limited to the following topics 1 Novel diagnostic molecules to improve the early detection rate for gastric cancer 2 Novel prognostic molecules to stratify gastric cancer patients into different risk 3 Novel therapeutic biomarker which could serve as target for treating gastric cancer 4 Novel biomarker to predict chemotherapy response of gastric cancer patients

#### From Child Terrorism to Peace Activism

Jonathan Matusitz,2022-10-14 This book examines the reasons for which children join terrorist movements and how they eventually become peace activists fighting the very crimes that they once committed The transformation of child terrorists into peace activists has received scant attention from academics and practitioners alike Particular focus is placed on child jihadism child terrorism in Africa and Latin America child separatist terrorism and White child supremacism These five groups of child terrorists represent about 80% of the problem across the world The text serves as a primer for anti terrorism and peace activism for global social change It includes original applied research and features personal accounts from former child terrorists who became peace activists themselves One of the nine chapters provides an in depth thematic analysis of the lives of 24 subjects from all five aforementioned groups The analysis produced four main themes that encapsulate the time and effort that it takes to become a peace activist today metamorphosis terrorist behavior disillusionment and anti terrorist behavior The book ends with multiple solutions from the perspective of social work including the reintegration of former child terrorists into society From Child Terrorism to Peace Activism is a resource of deep and broad appeal The text is essential reading for upper level undergraduate and Master s students in political science military studies international relations international law and peace and conflict studies It can be pertinent reading for students and instructors in international social work contemplating social work related solutions to rehabilitate former child terrorists and child soldiers into society through peace activism anti terrorist endeavors and other socio psychological methods that will produce social change The text also would appeal to faculty and students in childhood studies with an interest in child terrorism child development and child trauma and resilience Given the essentials depth and possibilities that the book offers it is a useful resource for audiences within counterterrorism institutes national security agencies and academic think tanks Information on motives strategies radicalization processes and recruitment methods used by terrorist organizations as well as their effects on various audiences will draw readers from law enforcement agencies and institutions

#### **The Role of the Tumor**

**Microenvironment (TME) and relevant Novel Biomarkers in Oncogenesis, 2nd edition** Zhouxiao Li,Hongyong Cao ,Wei Xu,2025-06-25 Tumors and their surroundings are closely related and constantly interact Tumors can influence their microenvironment by releasing cell signaling molecules that promote neoplasm angiogenesis and induce immune tolerance

while immune cells in the microenvironment can influence cancer cell growth and development The tumor microenvironment TME a complex biological ecosystem for cancer cells to survive and develop refers to the surrounding circumstances of cancer cells including surrounding blood vessels immune cells fibroblasts bone marrow inflammatory cells various signaling molecules and extracellular matrix ECM The immune cells and their regulation mode in TME have tumor antagonizing or tumor promoting functions TME has been gradually recognized as a key contributor to cancer progression and drug resistance with cellular components in the TME able to enhance tumor resistance by recruiting and secreting multiple protective cytokines The acellular components of TME can mediate drug resistance by building physical barriers affecting tumor cell growth and metabolism etc Knowledge of the above is paving the way for identifying new targets and discovering new therapies Studying the dynamic relationship between tumor surroundings and neoplasm and clarifying the molecular mechanism of different factors refers to TME in the process of tumor progression are the key elements of cancer inhibition Currently there is a proliferation of publicly available tumor genomic databases Such as the Cancer Genome Atlas TCGA Gene Expression Omnibus GEO Surveillance Epidemiology and EndResults Program SEER International Cancer Genome Consortium ICGC and National Cancer Database NCDB These abundant public database resources enable researchers to mine multi omics cancer data to better understand the interactions between tumors and their microenvironment and to discover biomarkers and therapeutic targets in TME that are associated with tumorigenesis This provides new targets for early diagnosis and precise treatment of tumors In this research topic we would like to demonstrate the function and mechanism of tumor microenvironment in tumorigenesis and development through various methods including sequencing bioassay experimental models such as PDX and organoids We welcome original research articles and reviews dedicated to 1 Mechanisms of tumor microenvironment involvement in tumor progression 2 Bioinformatics or big data demonstrating the role of the tumor microenvironment in tumor progression 3 Molecular therapeutic mechanisms and clinical studies related to the tumor microenvironment 4 Biomarkers and therapeutic targets related to tumor microenvironment 5 Drug resistance mechanism related to tumor microenvironment

Immunological Precision Therapeutics: Integrating Multi-Omics Technologies and Comprehensive Approaches for Personalized Immune Intervention Wenyi Jin,Raquel Alarcon

Rodriguez,Mar Requena Mullor,2025-03-20 In the realm of modern immunology the pursuit of precision therapeutics has emerged as a paramount endeavor This research field harnesses the power of advanced multi omics technologies and comprehensive methodologies to revolutionize personalized immune interventions Immunotherapy a cornerstone of precision medicine targets the intricate dynamics of the immune system to combat diseases ranging from cancer to autoimmune disorders Integrating multi omics analyses including genomics transcriptomics proteomics and metabolomics enables a holistic understanding of immune responses at various molecular levels Immune signatures derived from these analyses unveil individualized patterns offering crucial insights into disease susceptibility and treatment efficacy Leveraging this wealth of data through sophisticated computational models and machine learning algorithms enhances our ability to predict immune responses and identify optimal therapeutic strategies By amalgamating diverse approaches from single cell profiling to spatial transcriptomics we delve deeper into the complexities of immune regulation and cellular interactions within the microenvironment Through collaborative efforts the pursuit of immunological precision therapeutics aims to tailor interventions precisely to each patient s immune landscape ushering in a new era of personalized immune modulation

This book delves into Individuals And Groups Cafs. Individuals And Groups Cafs is an essential topic that must be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Individuals And Groups Cafs, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:

- Chapter 1: Introduction to Individuals And Groups Cafs
- Chapter 2: Essential Elements of Individuals And Groups Cafs
- Chapter 3: Individuals And Groups Cafs in Everyday Life
- Chapter 4: Individuals And Groups Cafs in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, the author will provide an overview of Individuals And Groups Cafs. The first chapter will explore what Individuals And Groups Cafs is, why Individuals And Groups Cafs is vital, and how to effectively learn about Individuals And Groups Cafs.
3. In chapter 2, this book will delve into the foundational concepts of Individuals And Groups Cafs. The second chapter will elucidate the essential principles that need to be understood to grasp Individuals And Groups Cafs in its entirety.
4. In chapter 3, the author will examine the practical applications of Individuals And Groups Cafs in daily life. This chapter will showcase real-world examples of how Individuals And Groups Cafs can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Individuals And Groups Cafs in specific contexts. The fourth chapter will explore how Individuals And Groups Cafs is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, the author will draw a conclusion about Individuals And Groups Cafs. The final chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Individuals And Groups Cafs.
