

## Test One Study Guide

### Chapter 1: Community- and Prevention-Oriented Practice to Improve Population Health

#### Home visiting safety tips

- Don't go into anyplace you feel unsafe (suspicious people)
- Have direction and map with you
- Carry a cell phone if possible but keep it on silent
- Have instructors cell and the school of nursing's member with at all times
- If severe allergies: premedicate
- Do not bring valuables or leave any visible in vehicle lock them in trunk of vehicle
- Always have full tank of gas
- Drive with windows closed and vehicle doors locked

#### Microscopic vs. Macroscopic and Upstream vs. Downstream

- Macroscopic: targeting larger population
- Microscopic: targeting smaller populations
- Downstream: individuals are impacted by issue at source
- Upstream: issue at the source

#### Public Health Core Functions- differentiate and be able to identify assessment, policy development, assurance

- Assessment: systematic data collection on the population, monitoring the populations health status, and making information available about the health of the community
  - o Diagnose and investigate health problems and health hazards in the community
  - o Research for new insights and innovative solutions to health problems
- Policy development: efforts to develop policies that support the health of the population, including using scientific knowledge base to make policy decisions
  - o Inform, educate and empower people about health issues
- Assurance: making sure that essential community-oriented health services are available. Includes providing essential personal health services for individuals as well as a competent PH workforce
  - o Enforce laws and regulation that protect health and ensure safety
  - o Evaluate effectiveness, accessibility, and quality of personal and population-based health services

#### Community based nursing practice vs. community-oriented nursing practice

- Community oriented: philosophy of nursing service delivery, focused on the health care of the community or populations
  - o Uses investigation of major health and environmental problems, health surveillance, community diagnosis
    - Goal: prevent disease and preserve, promote, restore, and protect health for the community and the population within it
      - Includes public health nursing
- Community based nursing practice focuses on illness care in the community, a result of increased hospital costs
