during every year there are students who keep us up at night because of the instructional challenges they face as writers. These students, our striving writers, may find success exploring different entry points and pathways than those their classmates travel. Every Child Can Write will help you lead striving writers along their journey toward growth, confidence, and success. Filled with practical strategies, classroom management ideas, and reproducible tools, this book also offers low and high tech solutions for increasing writing volume and boosting self-esteem. Plus, with suggestions for differentiating instruction based on standards and student needs, it will help you implement principles of UDL to optimize your classroom environment and student learning. Identify and honor students' strengths throughout your writing instruction. Maximize the power of formative assessment to set goals with students and integrate the most appropriate technology that empowers students and leads them to independence. As essential as writing is in elementary school, it will be even more important when your students reach middle school. Now is the time to give them the skills, practice, and confidence they need to succeed. As we know, in distance learning, caregivers and teachers partner more than ever to help students with writing. The Distance Learning companion to Every Child Can Write is for teachers to share with caregivers to help children develop their writing lives, even while learning at home. Each of the eight modules contains video clips that talk caregivers through tools for supporting their student writers, along with downloadable tools that can be used by teachers or caregivers.

A best practice glossary, If-Then charts, unit planning calendars, and other tools round out these essential references, both in book and online. Follow each sequence, and week by week, you'll build the instructional potency to help students achieve a year's worth of growth as you integrate Writing Narratives with Identifying Sensory Words in Text, Research with Identifying Topic and Details, Opinion Writing with Close Reading for Text Evidence, Comparing and Contrasting with Publishing Using Digital Tools, Informative Writing with Use of Text Features.
