Strengthening Peace in Post-Civil War States Matthew Hoddie, Caroline A. Hartzell, 2010-09-15 Among the more frequent and most devastating of conflicts civil wars from Yugoslavia to Congo frequently reignite and even spill over into the international sphere Given the inherent fragility of civil war peace agreements innovative approaches must be taken to ensure the successful resolution of these conflicts Strengthening Peace in Post Civil War States provides both analytical frameworks and a series of critical case studies demonstrating the effectiveness of a range of strategies for keeping the peace Coeditors Matthew Hoddie and Caroline A Hartzell here contend that lasting peace relies on aligning the self interest of individuals and communities with the society wide goal of ending war if citizens and groups have a stake in peace they will seek to maintain and defend it The rest of the contributors explore two complementary approaches toward achieving this goal restructuring domestic institutions and soft intervention Some essays examine the first tactic which involves reforming governments that failed to prevent war while others discuss the second an umbrella term for a number of non military strategies for outside actors to assist in keeping the peace

Racial Politics in an Era of Transnational Citizenship Michael Chang, 2004-01-01 Following 1996's Asian Donorgate campaign finance controversy Chinese Americans and by proxy all Asian Americans were depicted in U S public discourse as foreigners subversively attempting to buy influence with U S politicians Racial Politics in an Era of Transnational Citizenship asks Will the perception of the Asian American as the perpetual foreigner continue to reproduce itself uncritically heightening during times of media supported nationalism Scholar Michael Chang's incisive work contributes greatly to current debates on civil rights and on the meaning of citizenship and belonging among a transnational community and in a globalized world

Religion and the Politics of Peace and Conflict Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The Connections Between Religion And Violence are Complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within

religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender The essays in this collection suggest that the tasks of ameliorating irrational fears and encouraging the recognition of irreducible interreligious complementarity are tasks that can and should be shared by Christianity Judaism and Islam Moreover these traditions are replete with exemplars both historical and contemporary who witness to the possibilities for interreligious dialogue and understanding For religious persons undoubtedly these issues are particularly challenging since they require us to confront the complexities and limitations of our own traditions while also responding to their often radical demands Yet in these complexities lie the possibilities for the religions to develop a greater sense of mutual understanding since it is in these complexities that the commonalities between the religions on the matter of political violence are found from the Introduction
