 looks a lot like Ignacio Duarte Rodriguez The 77 year old grandfather was struck in a hit and run crash while trying to cross a
 high speed six lane road without crosswalks near his son s home in Phoenix Arizona He was one of the more than 6 000
 people killed while walking in America in 2018 In the last ten years there has been a 50 percent increase in pedestrian
 deaths The tragedy of traffic violence has barely registered with the media and wider culture Disproportionately the victims

 Way* journalist Angie Schmitt shows us that deaths like Duarte Rodriguez s are not unavoidable accidents They don t happen
 because of jaywalking or distracted walking They are predictable occurring in stark geographic patterns that tell a story
 about systemic inequality These deaths are the forgotten faces of an increasingly urgent public health crisis that we have the
 tools but not the will to solve Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs
 and movements that are beginning to respond to the epidemic Her investigation unveils why pedestrians are dying and she
 demands action *Right of Way* is a call to reframe the problem acknowledge the role of racism and classism in the public
 response to these deaths and energize advocacy around road safety Ultimately Schmitt argues that we need improvements in
 infrastructure and changes to policy to save lives *Right of Way* unveils a crisis that is rooted in both inequality and the
 undeterred reign of the automobile in our cities It challenges us to imagine and demand safer and more equitable cities
