Les Faits Accomplis:

La question des sucres résolue par les faits accomplis, 1847* *China, Faits Accomplis and the Contest for East Asia* Joshua Hastey, 2023-04-28 This book explores China's use of faits accomplis in its periphery and offers the first formal model for the use of faits accomplis by rising powers. With growing attention to great power competition and conflict in the gray zone between war and peace, this book explains China's use of faits accomplis to revise the maritime status quo in the South and East China Seas. Using formal modelling and case study analysis, the book argues that while power shifts provide rising states with opportunities to impose faits accomplis to revise the status quo, the use of faits accomplis also increases the likelihood of war with the dominant states. The book surveys existing understandings of how power shifts incentivize interstate competition in general and in the case of Sino-American competition in particular, and brings existing theory and novel modelling to explain China's differing strategies in the South and East China Seas in the first two decades of the 21st century. The book concludes by using the lessons from these cases to assess the strategic options available to both states and conditions that make a peaceful resolution more likely. This book will be of much interest to students of Chinese politics, Asian security studies, and International Relations. De l'autorité des faits accomplis Armand-Louis Ménard, 1860 **Causes of War** Stephen Van Evera, 2013-01-14 What causes war? How can military conflicts best be prevented? In this book, Stephen Van Evera frames five conditions that increase the risk of interstate war: false optimism about the likely outcome of a war, a first strike advantage, fluctuation in the relative power of states, circumstances that allow nations to parlay one conquest into another, and circumstances that make conquest easy. According to Van Evera, all but one of these conditions rarely occur today, but policymakers often erroneously believe in their existence. He argues that these misperceptions are responsible for many modern wars and explores both World Wars, the Korean War, and the 1967 Mideast War as test cases. Finally, he assesses the possibility of nuclear war by applying all five hypotheses to its potential onset. Van Evera's book demonstrates that ideas from the Realist paradigm can offer strong explanations for international conflict and valuable prescriptions for its control. **Fait accompli dans la psychothérapie de l'adolescent (Le)** François Marty, Philippe Gutton, Philippe Givre, 2003 **Offense, Defense, and War** Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2004-10-15 An overview of offense-defense theory, which argues that the relative ease of offense and defense varies in international politics. Offense-defense theory argues that the relative ease of offense and defense varies in international politics. When the offense has the advantage, military conquest becomes easier and war is more likely; the opposite is true when the defense has the advantage. The balance between offense and defense depends on geography, technology, and other factors. This theory and the body of related theories has generated much debate and research over the past twenty-five years. This book presents a comprehensive overview of offense-defense theory. It includes contending views on the theory and some of the most recent attempts to refine and test it. *Theories of War and Peace* Michael E. Brown, Owen R. Cote, Jr., Sean M.

Lynn-Jones, Steven E. Miller, 1998-09-15 New approaches to understanding war and peace in the changing international system What causes war How can wars be prevented Scholars and policymakers have sought the answers to these questions for centuries Although wars continue to occur recent scholarship has made progress toward developing more sophisticated and perhaps more useful theories on the causes and prevention of war This volume includes essays by leading scholars on contemporary approaches to understanding war and peace The essays include expositions analyses and critiques of some of the more prominent and enduring explanations of war Several authors discuss realist theories of war which focus on the distribution of power and the potential for offensive war Others examine the prominent hypothesis that the spread of democracy will usher in an era of peace In light of the apparent increase in nationalism and ethnic conflict several authors present hypotheses on how nationalism causes war and how such wars can be controlled Contributors also engage in a vigorous debate on whether international institutions can promote peace In a section on war and peace in the changing international system several authors consider whether rising levels of international economic independence and environmental scarcity will influence the likelihood of war *The Politics of 'Fait Accompli' and the 'New World Order'* Antonio Torres-Alcalá, 2022-04-05 Considering the actual environment in society would you the middle and working class say that you are better off today than let s say a few years back What has changed This is the issue analyzed in this book Our present state of affairs started long time ago and it was put in motion not by you but by the United Nations supported by the world s elite It s called the 2030 Agenda wholeheartedly endorsed by the World Economic Forum also called the Davos Forum composed of the world s top politicians financiers and big pharma companies and even with the blessing of the Catholic Pope and China s leader Xi Jinping What was needed to achieve total domination of the world was a state of universal fear as Machiavelli states in The Prince That they did first with a manufactured pandemic coronavirus predicted with total accuracy just before it happened A coincidence or a premeditated criminal act Then a questionable election in the United States which brought socialism to our nation a necessary first step to communism and a totalitarian government This is the present situation So ask yourself again Are you better off today than a few years ago What has happened Please read the book *La souveraineté pontificale selon le droit Catholique et le droit Européen* Félix Antoine Philibert DUPANLOUP (Bishop of Orleans.), 1860 **Recueil Des Cours, Collected Courses, 1938** Academie De Droit International De La Ha, Hague Academy of International Law, 1970-12-01 Annales du Parlement français , Reports of the Supreme Court of Canada Canada. Supreme Court, 1920 *France and the Confederate Navy, 1862-1868* John Bigelow, 1888 **Bulletins Et Mémoires de la Société Médicale Des Hôpitaux de Paris** , 1875 *Cyclopaedia of Political Science* John Joseph Lalor (d. 1899, ed), 1888 *Being Given* Jean-Luc Marion, 2002 First in a trilogy which also includes Marion s Reduction and givenness and In excess studies of saturated phenomena **Cyclopaedia of Political Science, Political Economy, and of the Political History of the United States** John Joseph Lalor, 1889 The Loving Struggle Emmanuel Falque, 2018-10-15

It has been 25 years since Dominique Janicaud derisively proclaimed the theological turn in French phenomenology due to the return of God to philosophy through the influence of religious thinkers such as Levinas, Ricoeur and Marion. Since then the theological turn has flowered into a fully fledged movement on both sides of the Atlantic. But what will be the shape and direction of the second generation of the theological turn? In this important new book Emmanuel Falque engages with all the major twentieth century French phenomenologists something heretofore unavailable in English. He argues that rather than being content to argue for the return of God to philosophy something fought for and developed by the foregoing generation of the theological turn it is necessary to stage a philosophical confrontation or *disputatio* with them and their work in order to ensure the ongoing vitality of the unexpected contemporary relationship between philosophy and theology. Drawing on the legacies of Jaspers and Heidegger who both staged their own loving struggles to arrive at defining philosophical conclusions Falque confronts, interrogates and learns from his most influential philosophical forebears to steer the theological turn in a new direction. Offering a novel and creative philosophy of the body Falque argues for a reorientation of philosophy of religion generally and the theological turn specifically from a philosophy of revelation from above to a philosophy of the limit from below.
