Les Initiatives Solidaires:

Les initiatives solidaires Laurent Gardin, 2006 Alors qu'avec l'extension du marché et la globalisation de l'économie la poursuite de l'intérêt individuel apparaît comme l'horizon indépassable de nos sociétés le foisonnement d'initiatives solidaires commerce quitable finances solidaires services de proximité ne peut que surprendre Pour comprendre les spécificités de ce phénomène l'ouvrage passe une approche exclusivement marchande de l'économie mais ne se limite pas pour autant l'analyse de la seule intervention des pouvoirs publics A partir d'observations menées dans plusieurs pays européens l'auteur met en évidence l'importance de la réciprocité dans le fonctionnement des initiatives solidaires sans luder les tensions ainsi générées avec le marché et l'Etat Dans la lignée de Proudhon et Gurvitch ce travail permet de rendre plus lisible une réalité complexe et variée et d'avoir des grilles de lecture ordonnant une grande diversité C'est une tape marquante et un acquis pour la sociologie économique Guy Roustang

Les initiatives solidaires Laurent GARDIN, 2006-10-19 Alors que la poursuite de l'intérêt individuel avec l'extension du marché et la globalisation d'une économie basée sur la rentabilisation maximale du capital apparaît comme l'horizon indépassable de nos sociétés le foisonnement d'initiatives économiques solidaires commerce quitable finances solidaires crèches parentales régies de quartier donne une base empirique pour de nouveaux questionnements sur l'économie Cet ouvrage présente l'originalité d'offrir la fois une approche concrète des initiatives solidaires et de nourrir la réflexion théorique sur leurs rapports avec l'Etat et le marché Laurent Gardin est maître de conférences à l'université de Valenciennes et chercheur au Laboratoire interdisciplinaire pour la sociologie économique CNRS CNAM Paris

Les nouvelles frontières de l'économie sociale et solidaire Hervé Defalvard, 2013-10-30 L'économie sociale et solidaire connaît aujourd'hui un développement remarquable Elle bénéficie depuis 2012 en France d'une reconnaissance politique avec la création d'un Ministère du lien L'Association d'économie sociale fait ici de l'économie sociale Mouvements sociaux et économie solidaire Jean-Louis Laville, Geoffrey Pleyers, Madame Elisabetta Bucolo, Jose Luis Coraggio, 2017-11-08 Et si les pratiques étaient en avance sur les théories En effet sur le terrain il existe de multiples liens entre mouvements sociaux et économie solidaire or le dialogue entre spécialistes de ces deux domaines reste trop rare Cette ignorance mutuelle n'est plus tenable Comme les acteurs les chercheurs en matière d'économie sociale et solidaire ont beaucoup appris de ceux qui se consacrent aux mouvements sociaux et réciproquement Il s'agit donc d'amorcer une réflexion dans ce sens Elle est alimentée par de nombreux exemples d'Amérique du Sud et du Nord d'Asie et d'Europe Appel des appels Attac commerce quitable insertion par l'activité économique mouvements écologiques et féministes Trente deux auteurs de ces divers continents analysent avec précision les acquis et limites de ces réalisations C'est bien une sociologie globale qui est visée puisque la perspective internationale ne se limite pas à une comparaison de données elle permet de formuler une conceptualisation originale de ces deux champs comme de leurs rapports Avec les contributions de Josette COMBES Thomas COUTROT Eric DACHEUX Iyonna FARAH HENRICH Bruno FRERE Laurent GARDIN Vincent de GAULEJAC Daniel GOUJON Isabelle GUERIN Pablo GUERRA

Glocal World Ulrike Schuerkens, 2025-03-24 More African women than men become entrepreneurs with women often balancing time caring for their households with small enterprises such as setting up shops in front of their homes renting market stalls or setting up hairstyling businesses This book considers these micro level instances of entrepreneurship as well

as cases of more established high status entrepreneurs to build a picture of women entrepreneurs in West African societies and their wider role in socio economic development Small and medium enterprises are seen as agents of change in the global south vital for job creation and poverty reduction but women often face barriers which hinder their entrepreneurial success such as lack of funding useful networks or inhibitive gender stereotypes This book highlights cases of gender and economic success to demonstrate the significant potential of the female economy to generate progress and change This book will be an important read for students and researchers of entrepreneurship business gender development and economic sociology in Africa

Le nouvel esprit solidaire Bruno Frère, Luc Boltanski, Jean-Louis Laville, 2017-11-23 Dans cet ouvrage Bruno Frère montre comment l'imaginaire associationniste de l'économie qualifiée aujourd'hui de solidaire plonge ses racines profondes dans les mouvements et les pensées révolutionnaires libertaires qui ont agité la France du milieu du XIXe siècle Ces mouvements apparaissaient alors comme une réelle proposition d'organisation sociale et politique alternative à l'économie de marché sans pour autant céder aux sirènes du socialisme organisé et la dictature du prolétariat Ils portaient les espoirs de résorber ce qui apparaissait comme tant une première crise de la modernité Aujourd'hui cet imaginaire semble renaître avec les initiatives de microcrédit d'entreprises alternatives de services de proximité de commerce équitable et de changes non monétaires Peut-on déjà voir une voie de sortie hors de la crise actuelle la modernité

Organisations d'économie sociale et solidaire. Lecture de réalités Nord et Sud à travers l'encastrement politique et une approche plurielle de l'économie Andreia Lemaître, 2009 Dans un contexte de prégnance des problématiques liées à l'exclusion nous analysons les processus d'institutionnalisation d'organisations d'économie sociale et solidaire qui ont une dimension clairement économique travers une activité continue de production de biens et services et qui poursuivent explicitement un objectif de création d'emplois pour des personnes défavorisées Nous stabilisons le concept d'encastrement demeure fortement polysémique dans la littérature et rarement opérationnalisés en étudiant l'encastrement politique des organisations d'économie sociale et solidaire c'est-à-dire l'inscription de ces organisations dans l'espace public et au sein des politiques publiques selon une relation d'influence réciproque C'est donc travers une hypothèse de co-construction du champ que nous examinons les processus d'institutionnalisation de ces organisations Nous étudions le double mouvement selon lequel d'une part ces organisations parviennent à s'inscrire dans le débat public se constituer en tant qu'acteur politique et mener au développement de politiques publiques D'autre part l'inscription spécifique de ces organisations dans l'espace public et dans le paysage des politiques publiques peut influencer en retour les pratiques organisationnelles développées entendues dans un sens pluriel Nous inscrivons en effet la recherche au sein des travaux de l'économie plurielle fondés sur une conception substantive de l'économie telle que mise en avant par Polanyi Pour tester la valeur heuristique du concept d'encastrement politique proposés dans la thèse nous l'opérons dans deux terrains différents un terrain Nord et un terrain Sud où varient les formes d'action publique des organisations d'économie sociale et solidaire ainsi que les formes d'action publique de l'État Il s'agit d'une part des entreprises sociales d'insertion par le travail en Région wallonne de Belgique et d'autre part des coopératives populaires de l'État de Rio de Janeiro au Brésil Au-delà des conclusions propres à chaque étude de cas cela nous permet de formuler des conclusions transversales relatives à la manière dont les organisations d'économie sociale et solidaire combinent une dimension économique de production de biens et services une dimension sociale de service à la collectivité

Guide pratique - Entreprise sociale et solidaire Philippe Colombié, Erik Pillet, 2011-07-07 Les entreprises sociales et solidaires partagent une même ambition mettre leur projet entrepreneurial au service de l'Homme Elles combinent ainsi leur démarche économique avec une finalité sociale et une gouvernance participative Qu'y a-t-il de plus exaltant que de transformer en réalité un projet commun bâti en direction des autres C'est dans cet esprit qu'ont travaillé les auteurs La 1^{re} partie est consacrée à la situation actuelle de l'économie sociale et solidaire en France son primat sur ses structures les emplois qu'elle représente les activités qu'elle recouvre et son poids économique 10% du PIB Dans la 2^e partie sont passées en revue les tapes incontournables du projet social et solidaire puis présentées et comparées toutes les structures envisageables associations fondations coopératives mutuelles SIAE ainsi que les différentes aides et subventions La 3^e partie est réservée à la gouvernance la gestion et au management d'une structure savoir gérer des tensions constructives et les différents statuts mobiliser et fidéliser les personnels se préparer au rôle d'entrepreneur social et solidaire se faire aider et enfin savoir valuer son projet

Vers une théorie de l'économie sociale et solidaire David Hiez, Eric Lavillunière, 2013-02-22 La recherche en économie sociale et solidaire a véritablement pris son essor au début des années 2000 Elle a investigué de nombreux champs de nombreux domaines d'activité mais ne dispose pas d'une assise théorique solidifiée Les querelles internes comme les questions de frontières limitant le périmètre identitaire de l'ESS ou les intersections et différences entre économie sociale et économie solidaire nourrissent débats et incertitudes C'est cette lucidité que le présent ouvrage participe autour de chercheurs représentants les courants internationaux majeurs d'horizons interdisciplinaires différents Il prend le parti pris de l'économie sociale et solidaire comme compromis politique rassemblant l'économie sociale et l'économie solidaire Fruit de réflexions collectives menées lors d'un séminaire à l'Université de Marne-la-Vallée et d'un colloque à l'Université du Luxembourg ce livre se présente comme une réflexion théorique systématique animée par les chercheurs et les acteurs C'est un point de départ qui pose le socle d'un corpus théorique en construction dans une dynamique d'aller et retours avec les pratiques qui l'ont fondé Social Enterprise and the Third Sector Jacques Defourny, Lars Hulgård, Victor Pestoff, 2014-06-05 The concepts of social enterprise and social entrepreneurship are rapidly attracting increased attention in academic spheres and from policy makers as well as field workers who are setting up new initiatives or reshaping their organizations These concepts are perceived as defining innovative and dynamic responses to major global challenges in today's societies The debate about social enterprise is now world wide with lively exchanges between American and European scholars However the research and landscapes still differ significantly in different regions and diversity also exists within specific regions such as Europe This book presents the most comprehensive set of contributions reflecting the European wide debate but with frequent connections to developments in other parts of the world This book is a result of work carried out by members of the EMES International Research Network which is a pioneer in this field Social Enterprise and the Third Sector will appeal to all researchers who focus on the third sector social economy and social enterprise to MBA and postgraduate students as well as to intellectual social enterprise leaders and practitioners It will soon become a key reference for all those who want to explore the full richness of these concepts and follow this important academic debate Finances et territoires Barbara Pfister, 1999-01-01 The International Handbook on Social Innovation Frank Moulaert, 2013-01-01 The challenges of poverty and social exclusion cannot be fully resolved through conventional public sector policies and market led innovation The case studies in this Handbook capture some of the key success factors of socially innovative action in different socio economic contexts This Handbook will inspire readers as it highlights the creativity and commitment of diverse enterprises and movements working for social innovation Anna Kajumulo Tibaijuka Minister for Lands Housing and Human Settlements United Republic of Tanzania and retired UN Under Secretary General immediate former Executive Director of UN HABITAT Social innovation may not be a new idea but it is clearly an idea whose time has come not least because the traditional models of innovation narrowly framed technical models have run their course and no longer resonate in a world of societal challenges This

Handbook has two great merits it brings conceptual rigour to the debate and it provides compelling narratives of social innovation in practice Kevin Morgan Cardiff University UK In an era where social innovation is re emerging as an important policy framework for bringing social transformation this volume is a significant contribution to the theory and practice of social innovation The incremental discussion from concepts to theory to practice and then to social innovation research is supported by cases literally from all over the globe It moves the discourse from isolated models of neighbourhood engagements and social enterprises to a comprehensive multidimensional approach combining needs social relations and empowerment A must read for academicians learners practitioners and policy makers alike S Parasuraman Tata Institute of Social Sciences Mumbai India Social innovation is an important instrument for understanding how contemporary societies deal with social change and how social practices and policies intended to combat poverty and social exclusion are developed and implemented effectively The Handbook offers a valuable contribution to the development of a clear transdisciplinary and critical understanding of social innovation practices The reader will find an in depth discussion of the most important theoretical approaches to the concept and a thorough exposition of the epistemological and methodological framework for research in social innovation The volume includes a number of interesting case studies in different areas of social change and issues of policy and governance Enzo Mingione University of Milano Bicocca Italy This enriching Handbook covers many aspects of the scientific and socio political debates on social innovation today The contributors provide an overview of theoretical perspectives methodologies and instructive experiences from all continents as well as implications for collective action and policy They argue strongly for social innovation as a key to human development The Handbook defines social innovation as innovation in social relations within both micro and macro spheres with the purpose of satisfying unmet or new human needs across different layers of society It connects social innovation to empowerment dynamics thus giving a political character to social movements and bottom up governance initiatives Together these should lay the foundations for a fairer more democratic society for all This interdisciplinary work written by scholars collaborating to develop a joint methodological perspective toward social innovation agency and processes will be invaluable for students and researchers in social science and humanities It will also appeal to policy makers policy analysts lobbyists and activists seeking to give inspiration and leadership from a social innovation perspective

Solidarity and Organization

Philippe Eynaud, Genauto Carvalho de França Filho, 2023-04-12 Solidarity is an unthought in the fields of organizational theory and management sciences However it is an increasingly important feature in the management of organizations The contemporary world suffers from a double unsustainability the abusive exploitation of natural resources endangers the balance of the climate and biodiversity while growing inequalities condemn our ability to maintain a balanced society These unsustainabilities are mutually reinforcing and call for the affirmation of a double solidarity which unites humans among themselves and links humans and nonhumans Such an effort cannot be decreed It must be organized Based on numerous grassroots initiatives and citizens experimentations that are being invented every day around the world and on a historical and anthropological approach this book explores different ways of combining solidarity and organization Solidarity based management governance of the commons and Buen Vivir approaches are some of the perspectives analyzed in the context of a North South dialogue in order to formulate the conceptual framework and practical steps of a social and environmental transition It offers both theoretical background and living examples to students professors and researchers to better understand and better teach new avenues for management
