Presenting a rare glimpse into the dining rooms of Belgian nobility from the Middle Ages to modern times specialists in the field discuss gastronomy and festive culture in a historical and sociological context. This stunning work provides insights into both the culinary proclivities and table manners of these epic gourmands answering such questions as What was the daily menu of the dukes of Burgundy? What was behind the sudden enthusiasm for saltwater fish in the 17th century and Why were exotic desserts so popular in the 19th century? A valuable addition to the historical study of Belgian Noblemen and the ruling elite this bilingual collection presented in both English and French creates a wonderfully rich portrait of the past from the dukes of Burgundy to Belgian royalty. **Les routes touristiques** Pascale Marcotte, Laurent Bourdeau, 2015-06-17 T00:00:00-04:00. Que l'on suive une route balisée ou que l'on préfère fuir hors des sentiers battus que l'on suive des routes aériennes ou nautiques que l'on rêve de la Route de la soie ou du vin c'est avec et contre la route que le touriste réalise son périple. Les industries touristiques de tous les pays l'ont compris et ont tenté d'aplanir lescueils de ces routes pour les voyageurs aussi bien que pour les acteurs touristiques. Ces derniers sont d'ailleurs de plus en plus nombreux travailler ensemble pour unir les richesses de leur région et en faire un produit complet unique et signifiant pour le visiteur. Au fil de ses 14 chapitres et grâce à l'œil aguerri d'auteurs de sept pays ce livre analyse le rôle et la perception de la route touristique dans divers endroits et différentes époques. La compréhension de l'apport des routes dans le développement économique et social ainsi que dans la protection des patrimoines culturels et naturels est riche d'enseignement pour les organisations qui cherchent aujourd'hui créer ou réinventer de nouvelles routes. C'est donc travers le prisme de différentes disciplines histoire géographie sociologie ethnologie marketing littérature psychologie ainsi que d'outils méthodologiques novateurs que les auteurs de ce livre proposent l'étude de ces routes et de leur rôle dans le développement des régions où elles sont implantées. Adoptant des visions aussi bien théoriques que pratiques le lecteur est invité poursuivre ce parcours sinueux et inattendu. **The Sober**

Revolution Joseph Bohling, 2018-12-15 Burgundy Bordeaux Champagne The names of these and other French regions bring to mind time honored winemaking practices Yet the link between wine and place in French known as *terroir* was not a given In *The Sober Revolution* Joseph Bohling inverts our understanding of French wine history by revealing a modern connection between wine and place one with profound ties to such diverse and sometimes unlikely issues as alcoholism drunk driving regional tourism Algeria's independence from French rule and integration into the European Economic Community In the 1930s cheap mass produced wines from the Languedoc region of southern France and French Algeria dominated French markets Artisanal wine producers worried about the impact of these inferior products on the reputation of their wines created a system of regional appellation labeling to reform the industry in their favor by linking quality to the place of origin At the same time the loss of Algeria once the world's largest wine exporter forced the industry to rethink wine production Over several decades appellation producers were joined by technocrats public health activists tourism boosters and other dynamic economic actors who blamed cheap industrial wine for hindering efforts to modernize France Today scholars food activists and wine enthusiasts see the appellation system as a counterweight to globalization and industrial food But as *The Sober Revolution* reveals French efforts to localize wine and integrate into global markets were not antagonistic but instead mutually dependent The time honored winemaking practices that we associate with a pastoral vision of traditional France were in fact a strategy deployed by the wine industry to meet the challenges and opportunities of the post 1945 international economy France's luxury wine producers were more market savvy than we realize

The Death of the French Atlantic Alan Forrest, 2020-01-31 *The Death of the French Atlantic* examines the sudden and irreversible decline of France's Atlantic empire in the Age of Revolution and shows how three major forces undermined the country's competitive position as an Atlantic commercial power The first was war especially war at sea against France's most consistent enemy and commercial rival in the eighteenth century Great Britain A series of colonial wars from the Seven Years War and the War of American Independence to the Revolutionary and Napoleonic Wars did much to drive France out of the North Atlantic The second was anti slavery and the rise of a new moral conscience which challenged the right of Europeans to own slaves or to sacrifice the freedom of others to pursue national economic advantage The third was the French Revolution itself which not only raised French hopes of achieving the Rights of Man for its own citizens but also sowed the seeds of insurrection in the slave societies of the New World leading to the loss of Saint Domingue and the creation of the first black republic in Haiti at the beginning of the nineteenth century This proved critical to the economy of the French Caribbean driving both colons and slaves from Saint Domingue to seek shelter across the Atlantic world and leaving a bitter legacy in the French Caribbean It has also created an uneasy memory of the slave trade in French ports like Nantes La Rochelle and Bordeaux and has left an indelible mark on race relations in France today
