Les Dames De Courlande:

The Struggle with Leviathan Emiel Lamberts, 2016-05-02 A panoramic picture of international politics and the formation of the modern State The opposition to the omnipotence of the State as symbolised by Thomas Hobbes Leviathan 1651 had a significant impact on the political organisation of European society A liberal strategy intended to provide a protective legal status for individual citizens whereas a social strategy aimed to strengthen the social fabric to counterbalance the power of the State Gradually both strategies became interwoven The Struggle with Leviathan pays special attention to the social strategy developed by conservative and ecclesiastical circles against the omnipotence of the State and is structured around the fascinating biography of the Austrian diplomat Gustav von Blome a grandson of Metternich and an important opponent of Bismarck He proved to be a transitional figure between aristocratic conservatism and Christian democracy which had a great influence on European integration after 1945 Besides Blome several other dramatis personae statesmen prelates political and social activists are featured As a result the book reads like a compelling narrative At the same time it offers a broadly sketched historical fresco of international politics and the gradual formation of the modern State The original Dutch edition of this book *Het gevecht met Leviathan* has been highly praised in the Dutch and Flemish press and was awarded the biennial international Arenberg Prize for European History and Culture **Adrienne Lecouvreur** Eugène Scribe, Ernest Legouvé, 1855 **Souvenirs Contemporains D'histoire Et de Littérature** Villemain (M., Abel-François), 1882 *Catalogue of the Public Library of the Polytechnic Society of Kentucky, 1880* Polytechnic Society of Kentucky, Louisville. The Invention of International Order Glenda Sluga,2021-12-07 The story of the women financiers and other unsung figures who helped to shape the post Napoleonic global order In 1814 after decades of continental conflict an alliance of European empires captured Paris and exiled Napoleon Bonaparte defeating French military expansionism and establishing the Concert of Europe This new coalition planted the seeds for today s international order wedding the idea of a durable peace to multilateralism diplomacy philanthropy and rights and making Europe its center Glenda Sluga reveals how at the end of the Napoleonic wars new conceptions of the politics between states were the work not only of European statesmen but also of politically ambitious aristocratic and bourgeois men and women who seized the moment at an extraordinary crossroads in history In this panoramic book Sluga reinvents the study of international politics its limitations and its potential She offers multifaceted portraits of the leading statesmen of the age such as Tsar Alexander Count Metternich and Viscount Castlereagh showing how they operated in the context of social networks often presided over by influential women even as they entrenched politics as a masculine endeavor In this history figures such as Madame de Sta l and Countess Dorothea Lieven insist on shaping the political transformations underway while bankers influence economic developments and their families agitate for Jewish rights Monumental in scope this groundbreaking book chronicles the European women and men who embraced the promise of a new kind of politics in the aftermath of the Napoleonic wars and whose often paradoxical contributions to modern diplomacy and international politics still resonate today **Histoire de la Russie depuis les origines jusqu'à nos jours** Alfred Rambaud,Émile Haumont,1914
