Sciences Humaines. Panorama des connaissances (NE) Jean-François Dortier, 2015-09-17 Toutes les sciences humaines rassemblées en un ouvrage de référence Un classique Nouvelle édition 2015 **Les sciences humaines** Jean-François Dortier, 2009 The Quest for Autonomy in Acadia André Magord, 2008 Acadians remain one of the few North American historical minorities which has been able to survive as a distinct ethno cultural and linguistic group This fact is all the more striking since this people suffered a deportation and dispersion and it does not possess its own territory nor does it have a government of its own Acadians therefore have continually had to face the issue of autonomy in all its varied forms The central issue addressed by this book is an inquiry into the nature of the process which has maintained the unique Acadian minority in existence right up to the present day This study differs from other multidisciplinary analyses of this community principally because it studies the historical continuity of the dynamic of autonomy that has evolved since the beginning of Acadia The research for this complete chronological framework encompasses a number of intersecting disciplinary approaches at the historical political socio cultural and existential levels These differing perspectives are harmonized by their common objective of defining the process of autonomization and the counter process of heteronomization which lie at the heart of each of the periods studied These approaches allow critical openings between the framework of social history power relationships and the fundamental aspirations of the minority Children's Agency and Development in African Societies Ofori-Kusi, Yaw, 2017-07-19 This book focuses on African childhood and youth within the context of development and socialization where children are expected to be moulded in the image of adults In many African societies children are generally held as passive bearers of the demands of adults regardless of the fact that they are often exposed to a multitude of challenges that originate from the capriciousness of those adults However buoyed by international conventions and national legislations that offer them greater protection and the ubiquitous internet that exposes them to childhood and youth experiences elsewhere many of them are increasingly becoming assertive in homes schools and communities as well as re invigorating their survival and self preservation instincts It is in this regard that this book through the various chapters engages with their competencies skills and creativity to respond to experiential challenges as independent migrants or ones under coercion working in city streets and markets or cocoa farms or juggling work and schooling in pursuit of some education Confronted with their parents and siblings health predicaments and the inadequacies of state and familial care or urgent negotiation of their sexualities they demonstrate incredible resilience Similarly their perceptiveness is demonstrated in a unique appreciation of politics and its actors and a capacity to assume responsibilities beyond their chronological age Thus while highlighting some of the challenges confronting African children the book provides gripping evidence of how they resiliently negotiate those challenges **Les 60 syllabes des 60 Jours de la Création de l'Humanité : Paysage et Portrait Et Les 102 livres : Ecritures** Matern Pendo, 2019-10-26 Au

La géographie - 3e éd. Jean-Jacques Bavoux, 2016-03-02. On n'a jamais autant parlé de géographie. Mais si elle a beaucoup dit sur la mondialisation, l'aménagement des territoires, les changements climatiques, l'emprise du cyberspace, l'explosion de la mobilité ou les tensions internationales, elle reste cependant une science méconnue. Cet ouvrage vient combler ce manque. En montrant la richesse des approches géographiques et le dynamisme de leurs tendances les plus actuelles, cette nouvelle édition entièrement remaniée et enrichie présente l'ensemble des méthodes bouleversées par les évolutions de la cartographie géographique, SIG, télédétection, l'essor de l'informatique et la géographie webmapping, globes virtuels et la prise en compte nouvelle des représentations et comportements spatiaux. Elle s'interroge sur les objectifs de la géographie et son utilité dans la société, étudiant en profondeur la manière dont elle est enseignée et ses rapports avec la politique, l'écologie, l'économie ou la culture. Un manuel à l'attention de tous les étudiants en géographie, des enseignants qui s'interrogent sur les métamorphoses de leur discipline et de tous ceux qui dans leur vie professionnelle ou leur vie tout court ont rapport avec les dimensions spatiales et territoriales.

Filmer l'éphémère Pascal Bouchez, 2007-09-26. L'auteur se demande si l'on peut filmer le théâtre, pourquoi, pour qui et comment. Il propose une solution de multicaptation documentaire dans une dialogique de trace, même de répondre aux attentes immédiates du grand public et de contribuer à la réflexion contemporaine.
