

II. Double Downdraft Carburetor for Models 220 a and 219

A. General

Models 220 a and 219 have a Solex double downdraft carburetor Type 32 (AA72). To all intents and purposes the double downdraft carburetor combines two separate carburetors in one. Thus, Fig. 2 has two 50 mm diameter venturi passages each with its own main jetification system and idle system. The venturiing system, and the choke mechanism, however, occupy both halves of the carburetor together. The float chamber and the air intake occupy a central position (Fig. 2F-571).
