1. Introduction

IHLs are centres of knowledge that can excel through the existence of knowledge sharing initiative, especially among lecturers [62] which are in the form of discussions, conferences or publications [8]. However, the knowledge sharing initiatives might not materialize if the culture of sharing is not instilled [8]. The initiatives are currently appear to be social phenomena and apparently is an important process in any organization [20]. But knowledge sharing requires a prerequisite whereby organization needs to possess a culture that create, manage and share knowledge [13] which eventually improve the teaching performance and innovation. However, before knowledge become a strategic resource, organizations had in the first place have to have a culture of creating, managing and

sharing knowledge [13]. This knowledge could ultimately make up the knowledge repository apart from maintaining organizational resources [62]. The implementation of knowledge sharing initiative in the context of IHLs in Malaysia, poses its own challenges [50].

Therefore, to eliminate problems and to maximise benefits, the initiative has to be well-planned and systematically implemented. This paper seeks to investigate the factors influencing knowledge sharing initiatives such as organizational (IHLs) factors, Information and Communication Technology (ICT) and individual (lecturers) in an effort to establish a knowledge repository and can be used by lecturers to enhance the teaching performance and innovation.

2. Problem Statement

Please read through the following sections for more information on preparing your paper. However, if you use the template you do not have to worry about setting margins, page size, and column size etc. as the template already has the correct dimensions. Knowledge sharing initiative in IHLs either globally or locally are under explored [16, 43, 71, 18]. Previous studies on factors influencing knowledge sharing in IHLs merely focused on
