This history of the first hundred and ten years of the discipline of Education at the University of Melbourne reflects the extraordinary change in the esteem in which it has been held in the university, Australia and the world. The very idea of Education as a suitable course of study at a university was initially opposed and until recently the standing of this faculty compared to other professional faculties such as Law or Medicine has been less than equal. But since the University was revitalised and reorganised under the Melbourne Model in 2008, its reputation has risen steadily. *Committed to Learning* brings to life those whose vision and hard work since its early beginning have brought such success to this faculty.
