6 to 8 Mathematics Science For 2025 Exam Using Evidence in Policy and Practice Ian Goldman, Mine Pabari, 2020-06-10

This book asks how governments in Africa can use evidence to improve their policies and programmes and ultimately to achieve positive change for their citizens. Looking at different evidence sources across a range of contexts, the book brings policy makers and researchers together to uncover what does and doesn't work and why. Case studies are drawn from five countries and the ECOWAS West African region and a range of sectors from education, wildlife, sanitation through to government procurement processes. The book is supported by a range of policy briefs and videos intended to be both practical and critically rigorous. It uses evidence sources such as evaluations, research synthesis and citizen engagement to show how these cases succeeded in informing policy and practice. The voices of policy makers are key to the book, ensuring that the examples deployed are useful to practitioners and researchers alike. This innovative book will be perfect for policy makers, practitioners in government and civil society and researchers and academics with an interest in how evidence can be used to support policy making in Africa.
