It Takes a School Jonathan Starr, 2017-02-07 A story of David and Goliath proportions how an American hedge fund manager created a unique school in Somaliland whose students against all odds have come to achieve success beyond anyone's wildest dreams Jonathan Starr once a cutthroat hedge fund manager is not your traditional do gooder and in 2009 when he decided to found Abaarso a secondary school in Somaliland the choice seemed crazy to even his closest friends Why they wondered would he turn down a life of relative luxury to relocate to an armed compound in a breakaway region of the world's 1 failed state To achieve his mission Starr would have to overcome profound cultural differences broken promises and threats to his safety and that of his staff It Takes a School is the story of how an abstract vision became a transformative reality as Starr set out to build a school in a place forgotten by the world It is the story of a skeptical and clan based society learning to give way to trust And it's the story of the students themselves including a boy from a family of nomads who took off on his own in search of an education and a girl who waged a hunger strike in order to convince her strict parents to send her to Abaarso Abaarso has placed forty graduates and counting in American universities from Harvard to MIT and sends Somaliland a clear message its children can compete with anyone in the world Now the initial question Starr was asked demands another If such a success can happen in an unrecognized breakaway region of Somalia can it not happen anywhere
