**The Sacred & the Digital** F.G. (Frank) Bosman,2019-04-18 Video game studies are a relative young but flourishing academic discipline But within game studies however the perspective of religion and spirituality is rather neglected both by game scholars and religion scholars While religion can take different shapes in digital games ranging from material and referential to reflexive and ritual it is not necessarily true that game developers depict their in game religions in a positive confirming way but ever so often games approach the topic critically and disavowingly The religion criticisms found in video games can be categorized as follows religion as 1 fraud aimed to manipulate the uneducated as 2 blind obedience towards an invisible but ultimately non existing deity ies as 3 violence against those who do not share the same set of religious rules as 4 madness a deranged alternative for logical reasoning and as 5 suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience The critical depictions of religion in video games by their developers is the focus of this special issue *Subtle Annihilation: How To Survive The Ongoing Genocide?* Pablo H. Solutin,2020-06-11

There is a river of living water that flows from the Father in Heaven through His Son our beloved Saviour This living water raises us from the dust and makes us alive The enemy of life however has dropped bits of poison that make us love death more than God We think we sincerely love God We do not know how sincerely wrong we are The great deceiver is leading many into the wide gate to hell God is calling His people and those who are willing to listen to enter the narrow gate that leads to the kingdom **Struth The Bloody Truth** Iarn Pernell,2018-05-17 This book describes how we ve all been living according to a reality that exists only in our own mind s creation of what we believe to be reality It explains how the church has manipulated the purely natural human emotion of fear to instill a belief in their god Just as each different religion has

their god as the only true god so too does every individual e Astrologye is a word used to describe the energies that permeate life on Earth and as once believed by now ancient civilizations that were overtaken and nearly destroyed by religion is the energy responsible for everything that manifests in life and in fact life itself For too long now man has lived under the fear of damnation in hell as a result of living against the word of the church s god which is only a creation of the church in order to preside over the minds of the masses for their own benefit Great monuments and rituals have been created by the church to give their god relevance and impress mankind to believe in a myth that exists solely for the purpose of gaining power over our mind and actions The French and Spanish Inquisitions are but one example of the total control the church almost achieved But truth cannot be changed for to do so is to manipulate the truth for your own selfish purposes Religion is in a constant state of change because religion is only a manipulation of philosophy Astrology has never changed over the hundreds of thousands of years that man has been observing the movements of the stars We are all only energy just as is the light given from the stars and energy responds to energy Thus we are all subject to a greater energy than our ego permits us to believe     Mother India ,1969 Articles about India and its culture based on Arabindo s Philosophy     The Modern Review
