The first seven chapters deal with the evolution of communication theories and processes common to all media. The next five deal with specific media in the chronological order in which they became mass media. Chapters 13 and 14 introduce two non-media institutions: advertising and public relations, whose exploration is essential in order to understand how mass media functions in our society. Finally, chapter 15 returns to the theme of technological evolution and its effects on society with an in-depth discussion of the Internet. Flexibility: Because it is concise, affordable, and comprehensive, it can be used either as a stand-alone text in mass media courses or as part of an instructional package in courses where mass communication is one of several major units. Themes: The following themes are introduced early and carried throughout: the evolution of media technology and its effects on society; the global and culture-bound character of mass communication.
