# PRIVATE EXCAVATIONS

David Robbins

The faces were imprisoned. More than simple imprisonment, they seemed to be contorted into spaces that were too small. The faces were surely in danger of being crushed.

## Exploring The Roots Of Dogma:

In the Beginning: Exploring the Roots of Philosophy Pasquale De Marco, 2025-03-22 In a world teeming with mysteries the ancient Greek philosophers known as the Presocratics embarked on a quest to unravel the enigmas of existence From the sun kissed shores of Ionia to the vibrant streets of Athens these fearless thinkers challenged conventional wisdom and sought rational explanations for the natural world Their inquiries captured in fragments and tantalizing glimpses laid the foundation for Western philosophy igniting a flame of intellectual curiosity that would burn brightly for centuries to come Driven by an insatiable thirst for knowledge the Presocratics explored the fundamental questions that have perplexed humanity since time immemorial What is the nature of reality How did the universe come into being What is the purpose of human existence Through their tireless pursuit of answers the Presocratics uncovered profound insights that continue to resonate with us today They posited that the world is governed by natural laws that matter is composed of indivisible particles and that the human soul is immortal Their ideas both radical and revolutionary sparked debates and discussions that shaped the course of intellectual history This book invites you on a journey through the Presocratic era a time of intellectual awakening and transformative discoveries It delves into the lives and teachings of these pioneering philosophers shedding light on their groundbreaking theories and the controversies that surrounded them From Thales of Miletus who believed that water was the fundamental principle of all things to Heraclitus of Ephesus who argued that everything is in a state of constant flux the Presocratics offer a kaleidoscope of perspectives that challenge our assumptions and expand our understanding of the world As we explore the Presocratic era we gain a deeper appreciation for the origins of philosophy and the enduring power of human inquiry Their legacy serves as a testament to the transformative power of reason and the boundless capacity of the human mind This book is an essential guide for anyone seeking to understand the roots of Western thought and the enduring questions that continue to shape our world If you like this book write a review

*Ancient Texts And Mormonsim Discovering the Roots of the Eternal Gospel in Ancient Israel and the Primitive Church Volume 1 Third Revised and Enlarged Edition* Dr. Eugene Seaich, 2016-10-19 Showing that Mormonism is a genuine restoration of Primitive Christianity To demonstrate to Latter Day Saints that Mormonism is what it exactly what it claims to be a genuine restoration of the Gospel Mormonism is an genuine restoration of the Gospel as it was taught by disciples of the Primitive Church This is important because through out the world Mormonism is labeled as a non scriptural non Christian cult which departs in alarming in alarming ways from the traditional concepts of the bible The claim that Mormonism is a cult and not a Christian religion is based on the fact that Mormonism accepts none of the traditional creeds of orthodoxy The chief difficulty with this assessment is that so called orthodoxy never existed before the fourth or fifth centuries until the Church s original teachings had been radically altered by Greek informed metaphysical concepts bearing little relationship to the thought of the earliest Christians

**Whispers of Tradition: Roots, Echoes, and Paradigms of a Spirited World** Pasquale De Marco, 2025-08-14 In a world increasingly defined by materialism and secularism there is a growing longing for meaning purpose and connection to something greater than ourselves This book responds to that longing by exploring the rich tradition of thought known as traditionalism Traditionalism is a diverse and multifaceted tradition that has its roots in the ancient world It is a response to the challenges of modernity a search for meaning in a world that has lost its way Traditionalism is based on the belief that there is a transcendent reality a reality that is beyond the reach of our ordinary perception This transcendent reality is the source of all meaning and value and it is the goal of all spiritual life to reconnect with it Traditionalism also emphasizes the importance of tradition Tradition is the repository of the wisdom of our forefathers and it provides us with a source of guidance and inspiration in our lives It tells us not only who we are but also who we can become This book explores the history and development of traditionalism from ancient Greece and Rome through the Middle East and Asia to the modern West It examines the ideas of some of the most important traditionalist thinkers including René Guénon Julius Evola and

Frithjof Schuon The book also shows how traditionalism can be applied to the challenges of the modern world It offers insights into how we can live more meaningful lives build stronger communities and create a more sustainable and just world Traditionalism is not a dogma It is an invitation to explore to question and to discover for ourselves the meaning of life It is an invitation to reconnect with the wisdom of the ancients and to find our place in the sacred web of existence If you like this book write a review

**A New Exploration of Hegel's Dialectics I** Deng Xiaomang,2022-05-10 This volume reinterprets Hegelian dialectics via an exploration of the two origins of dialectics and illuminates how they constitute the inner tension at the heart of the philosophical system developing into the forms of thought that fashion the history of western philosophy As the first volume of a three volume set that gives insights into Hegel s dialectics and thereby his overall philosophical thought the book considers the linguistics spirit of logos and the existentialist spirit of nous in Greek philosophy as the two origins of Hegelian dialectics The author argues that the two spirits form a dialectical unity of opposites and constitute the inner tension at the heart of the belief system Based on this tension this volume explains Hegel s problem of beginning that has the sense composed of both the starting point of logic and that of consciousness Beginning in this twofold sense shapes dimensions of his methodology immediacy and mediacy the path of doubt and the path of truth the linguistics lever and the existential lever The title will appeal to scholars and students interested in Hegel and Marx s philosophy German classical philosophy and Western philosophy

Exploring The Roots Of Dogma: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have charmed audiences this year. Exploring The Roots Of Dogma : Colleen Hoovers "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Exploring The Roots Of Dogma : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Exploring The Roots Of Dogma : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
