

Expository Writing

Expository writing provides facts and information. It can also explain ideas or how to do something. There are different ways to organize expository writing, depending on what it is about and what its purpose is.

- A text in **chronological order** presents things in the order in which they happened (dates/times).
- A text that **compares and contrasts** presents the similarities and differences between two or more things.
- A text in **cause and effect** order explains the effect that one person, thing, or event has on another.
- A text that is in **sequential order** presents information in a step-by-step way.
- A text organized by **problem/solution** presents a problem and then a solution to that problem.
- A text organized in **order of importance** puts the most important information first, and the less important information later.

What is your topic? _____

Which of the organizational approaches described above will work best for your topic? Why?
