F-51 Mustang Units of the Korean War Warren Thompson, 2015-12-20 By the time the Korean War erupted the F 51 Mustang was seen as obsolete but that view quickly changed when the USAF rushed 145 of them to the theatre in late 1950 They had the endurance to attack targets in Korea from bases in Japan where the modern F 86 fighters and other jets did not Rather than the interceptor and escort fighter roles the Mustang had performed during World War 2 in the Korean War they were assigned to ground attack missions striking at communist troop columns advancing south This is the chronicle of the Mustang units that fought in the Korean War detailing the type s involvement in a series of intense actions its successes and its considerable losses Drawing on meticulous research and gripping first hand accounts from aircrew this book explains how the faithful Mustang was able to roll back the years fight and prove itself in a new era of aerial warfare

RF-101 Voodoo Units in Combat Peter E. Davies, 2019-03-21 McDonnell s F 101 Voodoo series was in many ways the most interesting of the Century Series fighter programmes of the 1950s partly because the type s design and intended mission changed radically during a 40 year career Originally designed as a fighter bomber it was converted to be a reconnaissance aircraft serving alongside the U 2 and RF 8 Crusaders during the Cuban Missile Crisis and the Vietnam War Although it gained a reputation as a difficult aircraft to handle the jet s supersonic speed and newly developed camera suite enabled it to conduct vital low altitude photo reconnaissance missions over heavily defended target areas In combat the RF 101 was usually first in last out for strike

missions This made it a ready target with a solo aircraft flying straight and level to gather target photo evidence at low altitude offering enemy gunners plenty of opportunity to shoot the Voodoo down This study tells the combat stories of this extraordinary aircraft highlighting the difficulty of the missions on which it was sent and the courage of its pilots *Report Including the Reports of the Secretary of Defense, Secretary of the Army, Secretary of the Navy, Secretary of the Air Force* United States. Department of Defense,1959 **Semiannual Report of the Secretary of Defense and the Semiannual Reports of the Secretary of the Army, Secretary of the Navy, Secretary of the Air Force** United States. Department of Defense,1958 **Annual Report of the Secretary of Defense and the Annual Reports of the Secretary of the Army, Secretary of the Navy, Secretary of the Air Force** United States. Department of Defense,1959 The Evolution of the US Air Force Israel Guy,2024-08-05 This book looks at the history of the US Air Force through the lens of its lack of preparedness for major wars which is shown to be a result of its organizational culture The U S Air Force is probably the most powerful military force in history both in its destructive firepower and in its ability to project it globally Yet despite its unparalleled power the Air Force entered its first three pivotal conflicts World War II the Korean War and the Vietnam War unprepared But surprisingly it was remarkably well prepared for its fourth major war the Gulf War of 1991 Could there be an underlying trait or characteristic which influenced the Air Force between the wars that historically caused the US Air Force to be unprepared for war or prepared for the wrong type of war Surprisingly there is such a factor which was quite prominent in the Air Force s complex identity its organizational culture Besides providing a historical description of the Air Force this book demonstrates clearly how its organizational culture evolved and how it caused the US Air Force to be prepared for the wrong war It also shows that when the organizational culture changed the Air Force changed its focus and arrived prepared for the following war the 1991 Gulf War This book will be of interest to students of air power strategic studies US public policy and security studies in general **Lockheed F-104 Starfighter** Martin W Bowman,2017-11-30 The F 104 Starfighter is quite possibly one of the most photographed aircraft of all time It is certainly one of the most iconic Here Martin Bowman offers up a well researched comprehensive and thoroughly entertaining history of this impressive interceptor aircraft and fighter bomber Firsthand insights gathered from pilots who have flown the Starfighter in a variety of international contexts make for a rich and diverse narrative interspersed throughout with a good selection of black and white and color illustrations that really bring the story to life Over the course of an eventful history the Starfighter has been caught up in an extensive variety of conflicts across the world This book not only acquaints us with the landmark milestones of a widely utilized aircraft type it also illuminates our understanding of the dynamic history of aviation in the second half of the twentieth century Combat Aircraft of the United States Air Force Michael Green,2016-07-30 When the United States Army Signal Corps created the Aeronautical Division in August1907 it had a mission to take charge of all matters pertaining to military ballooning air machines and all kindred matters That small inconsequential portion of the USArmy would grow

progressively over the many decades to become a separate service named the USAir Force in 1947 following the Second World War Overnight it became the worlds most powerfulmilitary establishment able to deliver conventional and nuclear ordnance anywhere around theglobe Todays cutting edge example of this power projection is the supersonic bat winged B 2 Spiritstealth bomber which can fly at an altitude of 50 000 feet and is built of carbon graphite compositematerials The B 2 Spirit is a far cry from the early days of the service when it relied on fragile prop drivenwood and fabric aerial platforms such as the Wright Type B which could barely reach analtitude of 100 feet In between have been such iconic Second World War aircraft as the P 51 Mustang and P 47Thunderbolt fighters and bombers such as the B 25 Mitchell B 17 Flying Fortress and B 29 SuperFortress which dropped the first A Bomb in 1945 The Cold War demanded ever more powerfulaircraft such as the B 58 Hustler and B 52 Stratofortress and fighters including the F 86 Sabre F 104Starfighter and F 4 Phantom All these aircraft and more are vividly illustrated and described in detailin this superb Images of War publication *The Air Force Blue Book* Tom Compere,1959 Civil Airworthiness Certification Miguel Vasconcelos,United States Department of Transportation, Federal Aviation Administration,2013-09-19 This publication provides safety information and guidance to those involved in the certification operation and maintenance of high performance former military aircraft to help assess and mitigate safety hazards and risk factors for the aircraft within the context provided by Title 49 United States Code 49 U S C and Title 14 Code of Federal Regulations 14 CFR and associated FAA policies Specific models include A 37 Dragonfly A 4 Skyhawk F 86 Sabre F 100 Super Sabre F 104 Starfighter OV 1 Mohawk T 2 Buckeye T 33 Shooting Star T 38 Talon Alpha Jet BAC 167 Strikemaster Hawker Hunter L 39 Albatros MB 326 MB 339 ME 262 MiG 17 Fresco MiG 21 Fishbed MiG 23 Flogger MiG 29 Fulcrum S 211 DISTRIBUTION Unclassified Publicly Available Unlimited COPYRIGHT Graphic sources Contains materials copyrighted by other individuals Copyrighted materials are used with permission Permission granted for this document only Where applicable the proper license s i e GFD or use requirements i e citation only are applied *Air Force Disappointments, Mistakes, and Failures* Kenneth Werrell,2024-06-18 While successful developments in aviation receive considerable attention the projects that failed or otherwise did not live up to expectations receive far less if any scrutiny Typically unsuccessful efforts are briefer in duration and have a less visible paper trail Thus while the literature is rich in success stories we tend to forget or simply bury our failures And as one observer has suggested that there were failures mistakes and wrong turns reminds us that progress is not inevitable that acknowledged error can be as instructive as success and that roads not taken impose a price all their own Here author Kenneth P Werrell tells of a race to overcome obstacles politics resources competing technologies timing in the quest to deliver quality if not war winning machinery The focus of Air Force Disappointments Mistakes and Failures 1940 1990 is on aircraft e g bombers fighters transports and missiles e g cruise missiles standoff missiles ballistic missiles surface to air missiles air to air missiles An intelligence system is also evaluated These case studies give the context and details of the development testing and as appropriate operational service

Highlighting the problems and criticisms of these systems then provides an opportunity to determine what went wrong. The reasons for the failures of these systems vary from the obvious money delays technical problems to more complex reasons such as the foe's reaction politics new technologies and timing. The tale of these disappointments is a heretofore untold story. These projects in which the US Air Force stumbled are outliers within the overall success of the service and fortunately its successes outnumber the failures.

Colors & Markings of the F-102 Delta Dagger
Rock Roszak, 2024-12-29

Colors Markings of the F 102 Delta Dagger is the second book in Detail Scale's Digital Colors Markings Series covering iconic military aircraft of the 20th Century. Between 1984 and 1994 Detail Scale produced 24 titles in our Colors Markings Series of books but the series was discontinued because of limitations then existing in the printing business. With the advent of digital publications this acclaimed series has returned and this second volume in the series shows the benefits of digital publishing at its best. The book covers the three primary color schemes used on the F 102 Delta Dagger in detail and provides coverage of every operational squadron that flew the famed Deuce Sixty five fighter interceptor squadrons are covered spanning the five major commands that operated the F 102: Air Defense Command ADC, Alaskan Air Command AAC, United States Air Forces in Europe USAFE, Pacific Air Forces PACAF and the Air National Guard. Colors Markings of the F 102 Delta Dagger comprehensively covers this iconic member of the Century Series of fighters with over 370 pages, 520 photographs, 352 of which are in color, 48 full color aircraft profiles and additional illustrations including paint diagrams. Along with the first volume in the series Colors Markings of the F9F Cougar in U S Navy Marine Corps Service this series sets the standard for covering squadron usage of iconic military aircraft.

F-15 Eagle at War Tyson Rininger, 2009-01-15

The F 15A entered service in 1972 as the first dedicated USAF air superiority fighter since the F 86 Sabre. More than three decades and myriad models and variants later the F 15 is still the U S Air Force's premiere air superiority weapon, a veteran of U S conflicts as recent as Operation Desert Storm and presently serving in the air forces of U S allies around the world. *F 15 Eagle at War* featuring the spectacular aerial photography of author Tyson V Rininger follows the design, manufacture and performance of the F 15 from its first appearance through its service in various Cold War and contemporary conflicts. The book profiles each model and upgrade in technology up to the F 15C D and E models that served in the Persian Gulf where they claimed 36 of 39 Air Force victories in air to air combat. It is a fitting and thoroughly fascinating tribute to this celebrated aircraft and icon of the U S Air Force.

Germany at War David T. Zabecki, 2014-10-28

Written by experts for use by nonexperts, this monumental work probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history. Despite having the best military forces in the world, some of the most advanced weapons available and unparalleled tactical proficiency, Germany still lost both World Wars. This landmark four volume encyclopedia explores how and why that happened at the same time, examining Germany as a military power from the start of

the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent

Air War Vietnam Martin W. Bowman, 2025-08-05 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman s revealing narrative of the aerial conflict in South East Asia 1965 1972 which had its beginnings in 1 November 1955 engulfed Vi tnam Laos and Cambodia and only ended with the fall of S i g n on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vi tnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vi tnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vi tnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked So too is the cost in human misery death and destruction
