

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Women and Militant Wars Swati Parashar, 2014-03-05 This book explores women's militant activities in insurgent wars and seeks to understand what women do in wars. In International Relations, inter-state conflict, anti-state armed insurgency, and armed militancy are essentially seen as wars where collective violence against civilians and security forces is used to achieve political objectives. Extending the notion of war as politics of injury to the armed militancy in Indian-administered Kashmir and the Tamil armed insurgency in Sri Lanka, this book explores how women participate in militant wars and how that politics not only shapes the gendered understandings of women's identities and bodies but is in turn shaped by them. The case studies discussed in the book offer new comparative insight into two different and most prevalent forms of insurgent wars today: religious-political and ethno-nationalist. Empirical analyses of women's roles in the Sri Lankan Tamil militant group the LTTE and the logistical-ideological support women provide to militant groups active in Indian-administered Kashmir suggest that these insurgent wars have their own gender dynamics in recruitment and operational strategies. Thus Women and Militant Wars provides an excellent insight into the gender politics of these insurgencies and women's roles and experiences within them. This book will be of much interest to students and scholars of critical war and security studies, feminist international relations, gender studies, terrorism and political violence, South Asia studies, and IR in general. Paper Knowledge Lisa Gitelman, 2014-05-07 Paper Knowledge is a remarkable book about the mundane: the library card, the promissory note, the movie ticket, the PDF, Portable Document Format. It is a media history of the document. Drawing examples from the 1870s, the 1930s, the 1960s, and today, Lisa Gitelman thinks across the media that the document form has come to inhabit over the last 150 years, including letterpress printing, typing, and carbon paper, mimeograph, microfilm, offset printing, photocopying, and scanning. Whether examining late nineteenth-century commercial or job printing or the Xerox machine and the role of reproduction in our understanding of the document, Gitelman reveals a keen eye for vernacular uses of technology. She tells nuanced, anecdote-filled stories of the waning of old technologies and the emergence of new. Along the way, she discusses documentary matters such as the relation between twentieth-century technological innovation and the management of paper and the interdependence of computer programming and documentation. Paper Knowledge is destined to set a new agenda for media studies. The Experimental City James Evans, Andrew Karvonen, Rob Raven, 2016-05-20 This book explores how the concept of urban experimentation is being used to reshape practices of knowledge production in urban debates about resilience, climate change, governance, and socio-technical transitions. With contributions from leading scholars and case studies from the Global North and South, from small to large-scale cities, this book suggests that urban experiments offer novel modes of engagement, governance, and politics that both challenge and complement conventional strategies. The book is organized around three cross-cutting themes. Part I explores the logics of urban experimentation, different approaches, and how and why they are deployed. Part II considers how experiments are being staged within cities by

whom and with what effects Part III examines how entire cities or groups of cities are constructed as experiments This book seeks to contribute a deeper and more socially and politically nuanced understanding of how urban experiments shape cities and drive wider changes in society providing a framework to examine the phenomenon of urban experimentation in conceptual and empirical detail Taxmann's CRACKER for Company Law & Practice (Paper 2 | Company Law) – Featuring Solved Past Papers | Case Study-based Questions for CS Executive | New Syllabus | Dec. 2025/June 2026 Exams CS N.S.
