### Objective

To establish that meaningful, long-term goals must be positive, personal and possible.

### Say:

Goal setting is critical to effective time management strategies.

It is the single most important life skill that most people never learn how to do properly.

Goal setting can be used in every area of your life, including financial, physical, personal development, relationships, or even spiritual.

According to Brian Tracy's book *Goals*, fewer than 3% of people have clear, written goals, and a plan for getting there.

Setting goals puts you ahead of the pack!

Hold Brian Tracy's book as you say this.

### Make the following key points:

- Some people blame everything that goes wrong in their life on something or someone else. They take the role of a victim and they give all their power and control away.
- Successful people instead dedicate themselves towards taking responsibility for their lives, no matter what the unforeseen or uncontrollable events.
