Constructing Professional Discourse Concepción Orna-Montesinos, 2012-01-17 This book explores the fascinating role that language plays in the construction of non verbal objects by mapping out the ontological meaning of the specialised concepts and the domain specific knowledge embedded in them In doing so it provides a comprehensive linguistic insight into the discourse of professional domain specific communities and hence into the communication practices and procedures of those communities In this respect the

book offers a response to the claims made by many of the most influential applied linguists today such as Vijay Bhatia 1993 2004 John Swales 1990 2004 or Ken Hyland 2002 among others who have consistently defended the need for applied linguistic research into the textual generic and social perspectives on the under researched interrelatedness of the discoursal and professional practices of a discipline Specifically this book provides readers with an integrative multi perspective approach to the study of professional domain specific discourses While it mainly draws on the tenets of genre theory and discourse semantics it also nurtures from the theoretical and empirical foundations of applied linguistics cognitive linguistics corpus linguistics and ontological engineering The book starts from the analysis of domain specific texts as final written products with specific lexico grammatical semantic and rhetorical features to later enquire into the written products as textual artefacts closely linked to the social context of production and interpretation of the text This integrative approach provides fresh new insights into the way the processes of writing are affected by the community specific institutional and socio historical circumstances in which domain specific texts are produced

Facilities

Management Handbook Frank Booty, 2009-04-09 Now in this fourth edition the Facilities Management Handbook has been fully updated from the acclaimed previous editions continuing its status as an invaluable resource to those working in facilities management whether just starting out or as seasoned campaigners and practitioners Information is presented in a clear and logical way offering easy to find advice and best practice information that is essential in guaranteeing the safe efficient and cost effective running of any facilities function Many sections have been completely revised such as the chapters on complying with health and safety and property law Other information on workplace facilities has been brought completely

up to date in line with legal compliance and strategic policies to create a reliable and accurate overview of the role of today's facilities manager. This up to date and revised handbook will be a key guide for the changing times that are ahead.

Maintainability of Facilities Yit Lin Chew, 2016-08-19 This book focuses on spearheading the integration of maintainability and green facility management right from the design stage. The text introduces the concept of green maintainability and discusses considerations to maximize the performance by achieving resource and energy efficiency while minimizing the total life cycle cost in embodied energy, environmental impact and consumption of matter energy throughout the life cycle of a facility by doing it right the first time. In this edition existing chapters have been brought up to date to include contemporary sustainability concerns such as sustainability design, construction and materials and maintainability of green features. *Maintainability of Facilities* is written for practitioners and students in architecture, engineering, building, real estate, construction, project management, facilities management, quantity and building surveying.

Knowledge Management and Information Tools for Building Maintenance and Facility Management Cinzia Talamo, Marcella Bonanomi, 2015-10-29 This book describes the latest methods and tools for the management of information within facility management services and explains how it is possible to collect, organize and use information over the life cycle of a building in order to optimize the integration of these services and improve the efficiency of processes. The coverage includes presentation and analysis of basic concepts, procedures and international standards in the development and management of real estate inventories, building registries and information systems for facility management. Models of strategic management are discussed and the functions and roles of the strategic management center explained. Detailed attention is also devoted to building information modeling (BIM) for facility management and potential interactions between information systems and BIM applications. Criteria for evaluating information system performance are identified and guidelines of value in developing technical specifications for facility management services are proposed. The book will aid clients and facility managers in ensuring that information bases are effectively compiled and used in order to enhance building maintenance and facility management.

The Facility Management Handbook Kathy Roper, Richard Payant, 2014-07-23 The wide ranging umbrella of facility management covers everything from technology systems to disaster recovery, planning to zoning compliance and that's just getting started. Facilities management is a multidisciplinary function that requires a deep knowledge of the entire business and physical planning cycle. Undoubtedly the sheer scope of duties requires a far reaching reference for staying abreast of the latest innovations and best practices. *The Facility Management Handbook* is the answer. This guide shares insightful overviews, case studies and practical guidelines that pave the way for successful planning, budgeting, real estate transactions, construction, emergency preparedness, security operations, maintenance and more. The thoroughly revised fourth edition examines cutting edge technologies and includes new information on Building Information Modeling (BIM), Contracting and project management methods, FASB and IASB requirements, Distributed working, Sustainability reporting and more. *The Facility Management*

Handbook is the one stop resource every facility manager must have to master a broad scope of duties while staying current on innovations and best practices

A Roadmap for the Uptake of Cyber-Physical Systems for Facilities

Management Matthew Ikuabe, Clinton Aigbavboa, Chimay J Anumba, Ayodeji Oke, 2023-06-22 This is the first book to conceptualise and develop a roadmap for the adoption of cyber physical systems CPS for facilities management FM in developing countries It is argued that effective use of CPS can help to significantly improve issues such as extended processing time poor data acquisition ineffective coverage of facility maintenance history and poor quality control within the facilities management sector Through a theoretical review of relevant technology adoption models and frameworks A Roadmap for the Uptake of Cyber Physical Systems for Facilities Management provides a clear insight into the required parameters for integrating CPS into facilities management The book will be beneficial to relevant stakeholders who face the responsibility of facilities and construction management as it contributes to the growing demand for the adoption of digital technologies in the delivery and management of built infrastructure Furthermore it serves as a solid theoretical base for researchers and academics in the quest to expand the existing borderline on construction digitalisation especially in the post occupancy stage

Strategic Recreation Management Jay Shivers, Joseph Halper, 2011-12-16 Strategic Recreation Management is a comprehensive and up to date introduction to the fundamental principles managerial techniques and practices in the public administration of recreational services It covers every key facet of public management as it concerns recreational service including organizational operational planning developmental and managerial procedures as well as examining all the contextual factors that influence the delivery of recreation such as political pressures economics social considerations physical resources and citizens perception of the field and its performance Each chapter offers illustrative case studies from the real world of recreation management with chapters sequenced to represent the typical day to day challenges and issues in recreation service Authors Jay Shivers and Joseph Halper have many years experience of working in the recreational sector as educators and practitioners and the result is a textbook that provides the perfect foundation for any degree level course in recreation management as well as being an indispensable reference for all professionals working in recreation service
