IBP USA,2018-02-21 Kenya A Spy Guide Strategic Information and Developments     **Sociology of the Blue-Collar Worker** Dufty,2022-09-12     **Education, Productivity, and Inequality** John B. Knight,R. H. Sabot,1990 The relationship between resources devoted to education and the economy of developing nations is explored The research seeks to understand if and how investment in education translates into increased economic growth and labor productivity Additionally the function of education in reducing various dimensions of economic inequality is examined The two East African nations that are the study s focus Kenya and Tanzania have similar levels of income but they differ markedly in their public policy toward the provision of secondary education and thus in the educational attainment of the labor force The research findings provide strong backing for the human capital paradigm educational expansion is shown to raise labor productivity The results also show that making education less scarce diminishes inequality in access to education and in income Numerous figures and tables of data appear throughout this volume a list of 170 references is included DB

**The Dynamics of Changing Higher Education in the Global South**

Busani Mpofu,Sabelo Ndlovu-Gatsheni,2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems

*The Report: Kenya 2014* Oxford Business Group,2014-11-13 The

country has a strong private sector and received encouraging forecasts of new oil gas and water reserves which if harnessed appropriately bode well for future growth While a pending international court case resulting from prior elections provoked a measure of uncertainty the country s medium to long term economic outlook is robust With over 40% of the population under the age of 15 Kenya stands to benefit from a significant demographic dividend provided that sufficient jobs can be found when this population bulge enters the workforce The country has a reasonably sized industrial base competitive infrastructure and a large agricultural sector all of which offer opportunities for capital intensive investment
