WITS: The Early Years Bruce Murray, 2022-09 WITS: *The Early Years* is a history of the University up to 1939. First established in 1922, the University of the Witwatersrand, Johannesburg, developed out of the South African School of Mines in Kimberley circa 1896. Examining the historical foundations, the struggle to establish a university in Johannesburg and the progress of the University in the two decades prior to World War II, historian Bruce Murray captures the quality and texture of life in the early years of Wits University and the personalities who enlivened it and contributed to its growth. Particular attention is given to the wider issues and the challenges which faced Wits in its formative years. The book examines the role Wits came to occupy as a major centre of liberal thought and criticism in South Africa, its contribution to the development of the professions of the country, the relationship of its research to the wider society and its attempts to grapple with a range of peculiarly South African problems such as the admission of black students to the University and the relations of English and Afrikaans speaking white students within it. This edition of WITS: *The Early Years* is republished in the University's centenary year with a preface by Keith Breckenridge who writes: 'In the republication of Murray's two-volume history of Wits, readers have an opportunity to explore the often dramatic and contested story of this university. Murray produced an intimate, almost scandalous intellectual history of the institution that served as his home for practically half a century.'

Higher Education for the Public Good Brenda Leibowitz, 2012-11-01 The authors of this inspiring collection discuss philosophical approaches and present empirical and practical ideas for teaching and learning at university for the public good. Four major aspects of transforming universities are explored: the purpose and ethos of the university; its conception of graduate attributes; the way programmes and teaching are delivered; and the institution's approach to academics and their professional development. The book will be indispensable to all universities who are evaluating their own principles and practice.

Memoirs of Relentless Pursuit Dr. JJ Klaas, 2015-06-03 The memoir is a gripping South African story projected through the life of a young African boy from the rural outskirts of the Eastern Cape Province The boy's life is a representation of hardships versus triumphs hopelessness versus determination and a profound sense of positive drive In line with Nelson Mandela's motto it is in your hands the memoir exemplifies that despite the challenging circumstances one remained focused to the possibilities of a better future The memoir is an exciting read of a touching yet positive story projected through different interphases of life

Mandela's Kinsmen Timothy Gibbs, 2014 Mandela's Kinsmen is the first study of the fraught relationships between the ANC leadership and their relatives who ruled apartheid's foremost tribal Bantustan the Transkei In the early 20th century the chieftaincies had often been well springs of political leadership In the Transkei political leaders such as Mandela used regionally rooted clan schooling and professional connections to vault to leadership they crafted expansive nationalisms woven from these kin identities But from 1963 the apartheid government turned South Africa's chieftaincies into self governing tribal Bantustans in order to shatter African nationalism While historians often suggest that apartheid changed everything African elites being eclipsed by an era of mass township and trade union protest and the chieftaincies co-opted by the apartheid government there is another side to this story Drawing on newly discovered accounts and archives Gibbs reassesses the Bantustans and the changing politics of chieftaincy showing how local dissent within Transkei connected to wider political movements and ideologies Emphasizing the importance of elite politics he describes how the ANC in exile attempted to re-enter South Africa through the Bantustans drawing on kin networks This failed in KwaZulu but Transkei provided vital support after a coup in 1987 and the alliances forged were important during the

apartheid endgame Finally in counterpoint to Africanist debates that focus on how South African insurgencies narrowed nationalist thought and practice he maintains ANC leaders calmed South Africa's conflicts of the early 1990s by espousing an inclusive nationalism that incorporated local identities and that Mandela's kinsmen still play a key role in state politics today Timothy Gibbs is a Lecturer in African History University College London Southern Africa South Africa Namibia Lesotho Swaziland Botswana Jacana
