

Operation Guide 5121

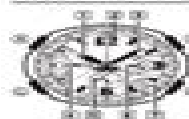

CASIO

Congratulations upon your selection of this CASIO watch.

This watch does not have a city code that corresponds to the UTC offset of +3.5 hours. Because of this, the radio-controlled atomic timekeeping function will not display the correct time for Newfoundland, Canada.

Note that CASIO COMPUTER CO., LTD. assumes no responsibility for any damage or loss suffered by you or any third party arising through the use of this product or its malfunction.

About This Manual

Button operations are indicated using the letters (A) through (F) shown in the illustration.

Hand Functions

- (1) Hour Hand
- (2) Second Hand
- (3) Minute Hand
- (4) Left Day Hand: Indicates the current day of the week and current mode.
- (5) 24-hour Hand: Indicates the current 24-hour timekeeping hour.
- (6) Right Day Hand: Indicates a time, in 24-hour format, depending on the current mode.

(7) Day

This User's Guide uses numbers shown above to identify watch hands and indicators.

Things to check before using the watch

1. Hold down (A) at least two seconds to enter the Timekeeping Mode, and then observe the movement of the (2) Second Hand.

2. Check the Home City and the daylight saving time (DST) settings.

Use the procedure under "To configure Home City settings" to configure your Home City and daylight saving time settings.

Important

Proper time calibration signal reception and World Time settings depend on correct Home City, time, and date settings in the Timekeeping Mode. Make sure you configure these settings correctly.

3. Set the current time.

- To set the time using a time calibration signal: See "To get ready for a receive operation".
- To set the time manually: See "Configuring Current Time and Date Settings Manually".

The watch is now ready for use.

- For details about the watch's radio-controlled timekeeping feature, see "Radio-Controlled Atomic Timekeeping".

Charging the Watch

The face of the watch is a solar cell that generates power from light. The generated power charges a built-in rechargeable battery, which powers watch operations. The watch charges whenever it is exposed to light.

Charging Guide

- Whenever you are not wearing the watch, leave it in a location where it is exposed to light.
- Best charging performance is achieved by exposing the watch to light that is as strong as possible.

- When wearing the watch, make sure that its face is not blocked from light by the sleeve of your clothing.
- The watch may enter a sleep mode if its face is blocked by your sleeve even only partially.

Warning!

Leaving the watch in bright light for charging can cause it to become quite hot. Take care when handling the watch to avoid burns injury. The watch also becomes particularly hot when exposed to the following conditions for long periods.

- On the dashboard of a car parked in direct sunlight
- Too close to an incandescent lamp

• Under direct sunlight

Important

- Keep the watch in an area normally exposed to bright light when storing it for long periods. This helps to ensure that power does not run down.
- Storing the watch for long periods in an area where there is no light or wearing it in such a way that it is blocked from exposure to light can cause power to run down. Make sure that the watch is exposed to bright light whenever possible.

Power Levels

Moves at two-second intervals.

You can get an idea of the watch's power level by observing the movement of the (2) Second Hand in the Timekeeping Mode.

- If the (2) Second Hand is moving normally at one-second intervals, power is at Level 1.
- If the (2) Second Hand is moving at two-second intervals, power is at Level 2, which is quite low. Expose the watch to light as soon as possible so it can charge.

Level	Hand Movement	Function Status
1	Normal	All functions enabled
2	(2) Second Hand: moves at two-second intervals. (4) Day: changes to 4 (charge indicator)	Receiver, time calibration signal reception disabled
3	(2) Second Hand: moves at four-second intervals. (4) Day: changes to 8 (charge indicator)	All functions disabled

- When power drops to Level 3, all functions will be disabled but the watch will continue to keep time internally for about one week. If you recharge the battery sufficiently during this period, the pending hands will move automatically to the correct setting and regular timekeeping will resume. After one week, all settings (including timekeeping) will be cleared. Recharging the battery will reset all settings to their initial factory defaults.

Power Recovery Mode

The watch is designed to go into a power recovery mode that stops hand operation temporarily whenever power suddenly drops below a certain level due to extreme of the alarm timer over a short period. Note that all operations are disabled while the watch is in the power recovery mode. The hands will move to the correct positions and the watch will resume normal operation after power recovers (in about 15 minutes). Putting the watch in a location where it is exposed to light will help power to recover faster.

Changing Times

Exposure Level (Brightness)	Only Operation = 1	Level Change "0"
Outdoor sunlight (50,000 lux)	3 minutes	Level 1 → Level 2 → Level 3
Window sunlight (10,000 lux)	30 minutes	Level 1 → Level 2 → Level 3
Window sunlight on cloudy day (5,000 lux)	60 minutes	Level 1 → Level 2 → Level 3
Indoor fluorescent lighting (500 lux)	3 hours	Level 1 → Level 2 → Level 3

- If Approximate exposure each day to generate power for normal daily operation.
- If Approximate exposure to last power on one day.
- For slow power recovery, it depends on lighting conditions.
- For details about the operating time and daily operating conditions, see the "Power Supply" section of the Specifications.

Power Saving

Power Saving enters a sleep state automatically whenever the watch is left for a certain period in an area where it is dark. The table below shows how watch functions are affected by Power Saving.

- There actually are two sleep state levels: "second hand sleep" and "function sleep".

Sleep State or Dark	Operation
60 to 70 minutes (second hand sleep)	(2) Second Hand: only stopped at 12 o'clock; all other functions enabled
6 or 7 days (function sleep)	• All functions, including atomic timekeeping, disabled. • Internal timekeeping maintained

- The watch will not enter a sleep state between 6:00 AM and 9:59 PM. If the watch is already in a sleep state when 6:00 AM arrives, however, it will remain in the sleep state.
- The watch will not enter a sleep state while it is in the Sleepwatch Mode.

To recover from the sleep state

Move the watch to a well-lit area or press any button.

Radio-Controlled Atomic Timekeeping

This watch receives a time calibration signal and updates its time setting accordingly; however, when using the watch outside of areas covered by time calibration signals, you will have to adjust the settings manually as required. See "Configuring Current Time and Date Settings Manually" for more information.

This section explains how the watch updates its time settings when the city code selected as the Home City is in Japan, North America, Europe, or China, and is one that supports time calibration signal reception.

If your Home City code setting is this:	The watch can receive the signal from the time station located here:
USA, USA, USA	North America (United States)
UK, UK, UK	Europe (United Kingdom)
JP, JP, JP	Japan (Tokyo)
CH, CH, CH	China (Beijing)
WW, WW, WW	World (UTC)

Important

- The areas covered by HPL and APR are quite far from the calibration signal transmitter, so certain conditions may cause reception problems.
- When HPL or APR is selected as the Home City, only the time and date are adjusted according to the time calibration signal. You need to switch manually between standard time and daylight saving time (DST) if required. See "To toggle the Home City time between standard time and daylight saving time" for information about how to do this.

G Shock Protection Manual Introduction

In today's digital age, the availability of G Shock Protection Manual books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of G Shock Protection Manual books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of G Shock Protection Manual books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing G Shock Protection Manual versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, G Shock Protection Manual books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing G Shock Protection Manual books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for G Shock Protection Manual books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a nonprofit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational

institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, G Shock Protection Manual books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of G Shock Protection Manual books and manuals for download and embark on your journey of knowledge?
