Geometry and Vision Minh Nguyen, Wei Qi Yan, Harvey Ho, 2021-03-17 This book constitutes selected papers from the First International Symposium on Geometry and Vision ISGV 2021 held in Auckland New Zealand in January 2021 Due to the COVID 19 pandemic the conference was held in partially virtual format The 29 papers were thoroughly reviewed and selected from 50 submissions They cover topics in areas of digital geometry graphics image and video technologies computer vision and multimedia technologies

Discrete Geometry for Computer Imagery Rocio Gonzalez Diaz, Maria Jose Jimenez, Belen Garfia Medrano, 2013-03-17 This book constitutes the thoroughly refereed proceedings of the 17th International Conference on Discrete Geometry for Computer Imagery DGCI 2013 held in Seville Spain in March 2013 The 34 revised full papers presented were carefully selected from 56 submissions and focus on geometric transforms discrete and combinatorial tools for image segmentation and analysis discrete and combinatorial topology discrete shape representation recognition and analysis models for discrete geometry morphological analysis and discrete tomography

Geometric Structures of Statistical Physics, Information Geometry, and Learning Frédéric Barbaresco, Frank Nielsen, 2021-06-27 Machine learning and artificial intelligence increasingly use methodological tools rooted in statistical physics Conversely limitations and pitfalls encountered in AI question the very foundations of statistical physics This interplay between AI and statistical physics has been attested since the birth of AI and principles underpinning statistical physics can shed new light on the conceptual basis of AI During the last fifty years statistical physics has been investigated through new geometric structures allowing covariant formalization of the thermodynamics Inference methods in machine learning have begun to adapt these new geometric structures to process data in more abstract representation spaces This volume collects selected contributions on the interplay of statistical physics and artificial intelligence The aim is to provide a constructive dialogue around a common foundation to allow the establishment of new principles and laws governing these two disciplines in a unified manner The contributions were presented at the workshop on the Joint Structures and Common Foundation of Statistical Physics Information Geometry and Inference for Learning which was held in Les Houches in July 2020 The various theoretical approaches are discussed in the context of potential applications in cognitive systems machine learning signal processing

Digital and Discrete Geometry Li M. Chen, 2014-12-12 This book provides comprehensive coverage of the modern methods for geometric problems in the computing sciences It also covers concurrent topics in data sciences including geometric processing manifold learning Google search cloud data and R tree for wireless networks and BigData The author investigates digital geometry and its related constructive methods in discrete geometry offering detailed methods and algorithms The book is divided into five sections basic geometry digital curves surfaces and manifolds discretely represented objects geometric computation and processing and advanced topics Chapters especially focus on the applications of these methods to other types of geometry algebraic topology image processing computer vision and computer

graphics Digital and Discrete Geometry Theory and Algorithms targets researchers and professionals working in digital image processing analysis medical imaging such as CT and MRI and informatics computer graphics computer vision biometrics and information theory Advanced level students in electrical engineering mathematics and computer science will also find this book useful as a secondary text book or reference Praise for this book This book does present a large collection of important concepts of mathematical geometrical or algorithmical nature that are frequently used in computer graphics and image processing These concepts range from graphs through manifolds to homology Of particular value are the sections dealing with discrete versions of classic continuous notions The reader finds compact definitions and concise explanations that often appeal to intuition avoiding finer but then necessarily more complicated arguments As a first introduction or as a reference for professionals working in computer graphics or image processing this book should be of considerable value Prof Dr Rolf Klein University of Bonn

Architectural, Energy and Information Engineering Wen-Pei Sung, Ran Chen, 2015-12-30 This proceedings volume brings together selected peer reviewed papers presented at the 2015 International Conference on Architectural Energy and Information Engineering AEIE 2015 held July 15 16 2015 in Hong Kong China The proceedings are divided into two parts Architectural Energy and Environmental Engineering and Information Engineering Multi-View Geometry Based Visual Perception and Control of Robotic Systems Jian Chen, Bingxi Jia, Kaixiang Zhang, 2018-06-14 This book describes visual perception and control methods for robotic systems that need to interact with the environment Multiple view geometry is utilized to extract low dimensional geometric information from abundant and high dimensional image information making it convenient to develop general solutions for robot perception and control tasks In this book multiple view geometry is used for geometric modeling and scaled pose estimation Then Lyapunov methods are applied to design stabilizing control laws in the presence of model uncertainties and multiple constraints

Intelligent Interactive Multimedia Systems and Services Ernesto Damiani, Robert J. Howlett, Lakhmi C. Jain, Luigi Gallo, Giuseppe De Pietro, 2015-06-09 Intelligent interactive multimedia systems and services will be ever more important in computer systems Nowadays computers are widespread and computer users range from highly qualified scientists to non computer expert professionals Therefore designing dynamic personalization and adaptivity methods to store process transmit and retrieve information is critical for matching the technological progress with the consumer needs This book contains the contributions presented at the eighth international KES conference on Intelligent Interactive Multimedia Systems and Services which took place in Sorrento Italy June 17 19 2015 It contains 33 peer reviewed scientific contributions that focus on issues ranging from intelligent image or video storage retrieval transmission and analysis to knowledge based technologies from advanced information technology architectures for video processing and transmission to advanced functionalities of information and knowledge based services We believe that this book will serve as a useful source of knowledge for both academia and industry for all those faculty members research scientists scholars Ph D students and

practitioners who are interested in fundamental and applied facets of intelligent interactive multimedia **Modern Trends and Techniques in Computer Science** Radek Silhavy, Roman Senkerik, Zuzana Kominkova Oplatkova, Petr Silhavy, Zdenka Prokopova, 2014-05-05 This book is based on the research papers presented in the 3rd Computer Science On line Conference 2014 CSOC 2014 The conference is intended to provide an international forum for discussions on the latest high quality research results in all areas related to Computer Science The topics addressed are the theoretical aspects and applications of Artificial Intelligences Computer Science Informatics and Software Engineering The authors provide new approaches and methods to real world problems and in particular exploratory research that describes novel approaches in their field Particular emphasis is laid on modern trends in selected fields of interest New algorithms or methods in a variety of fields are also presented This book is divided into three sections and covers topics including Artificial Intelligence Computer Science and Software Engineering Each section consists of new theoretical contributions and applications which can be used for the further development of knowledge of everybody who is looking for new knowledge or new inspiration for further research

2013 6th International Conference on BioMedical Engineering and Informatics (BMEI 2013), 2014-01-07 SPBEI 2013 aims to be an excellent platform to facilitate international exchange of state of the art research and practice in image video and signal processing biomedical engineering informatics and their cross intersection to catalyze innovative research ideas and to disseminate new scientific discoveries The nature of the research demands collaboration in medicine biology physics engineering computer science and statistics and SPBEI attempts to expedite and strengthen the exploration and systemization of interdisciplinary knowledge This year the conference received a large number of submissions around the globe and all papers have been rigorously reviewed by a large number of peer reviewers who have spent tremendous amount of time and effort on the evaluations with each paper receiving three to six reviews We would like to thank all those who submitted papers for considerations and we extend our sincere gratitude to all those who devoted their time and effort professionally to ensuring the high standards of the technical program including the authors committee members peer reviewers and session chairs *Computational Science and Its Applications -- ICCSA 2013* Beniamino Murgante, Sanjay Misra, Maurizio Carlini, Carmelo Maria Torre, Hong-Quang Nguyen, David Taniar, Bernady O.
