History and the Christian Historian Ronald Wells, 1998-09-17 This volume arises out of special concerns of historians who are also Christians What case can be made for connecting historical work and religious convictions What is the relation of faith to history What difference could Christian perspectives make in historical study Thirteen respected scholars including some who have changed the face of history writing in the twentieth century here take up a diversity of subjects in giving a provisional answer to these important questions In exploring foundational issues of perspective and theory engaging discrete themes such as feminism puritanism

and missiology and discussing the application of religious insights in teaching history this excellent collection of essays forthrightly addresses the epistemological crisis brought on by the postmodern critique of truth and demonstrates the positive implications of a Christian perspective for the study of history and historiography **The Craft of History and the Study of the New Testament** Beth M. Sheppard, 2012-11-11 Do professional historians and New Testament scholars use the same methods to explore the past This interdisciplinary textbook introduces students of the New Testament to the vocabulary and methods employed by historians It discusses various approaches to historiography and demonstrates their applicability for interpreting the New Testament text and exploring its background Overviews of the philosophy of history common historical fallacies and the basics of historiography are followed by three exegetical studies that illustrate the applicability of various historical methods for New Testament interpretation **The New Atheist Denial of History** B. Painter, 2014-11-19 This compact forcefully argued work calls Sam Harris Richard Dawkins Steven Pinker and the rest of the so called New Atheists to account for failing to take seriously the historical record to which they so freely appeal when attacking religion The popularity of such books as Harris s *The End of Faith* Dawkins s *The God Delusion* and Christopher Hitchens *God Is Not Great* set off a spate of reviews articles and books for and against yet in all the controversy little attention has focused on the historical evidence and arguments they present to buttress their case This book is the first to challenge in depth the distortions of this New Atheist history It presents the evidence that the three authors and their allies ignore It points out the lack of historical credibility in their work when judged by the conventional criteria used by mainstream historians It does not deal with the debate over theism and atheism nor does it aim to defend the historical record of Christianity or religion more generally It does aim to defend the integrity of history as a discipline in the face of its distortion by those who violate it **Outlines and Highlights for History and Historians** Cram101 Textbook Reviews, 2011-05-01 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780132286787 *Writing, Teaching and Researching History in the Electronic Age* Dennis A. Trinkle, 2015-04-29 This volume focuses on the role of the computer and electronic technology in the discipline of history It includes representative articles addressing H Net scholarly publication on line reviewing enhanced lectures using the World Wide Web and historical research **Textbooks on Israel-Palestine** Seyed Hadi Borhani, 2022-01-27 How is the Israel Palestine question narrated in Western academia What ideas dominate the key textbooks on the subject and what is presented as truth This book answers these critical questions It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine But academic support of Israel in the West has been a neglected issue with Western academic knowledge being regarded as impartial and objective This book reveals that this understanding of Western academic

knowledge is wrong when it comes to the Israel Palestine question Rather knowledge has been biased misleading and dogmatic and Western college students are subscribing to factual histories based on theories at best if not fiction The book is the first empirical investigation able to document this partial reporting of history Seyed Hadi Borhani examines the most popular college level textbooks used to teach the history of the Israel Palestine in Western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge The book provides a historical map of how the Israel Palestine conflict is understood in the West The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in Western academia
