History Paper November 2014 Question Paper:

The ^AVoice of the Past Paul Thompson,2017-02-24 Oral history and life stories through recording the experiences of people of all kinds invigorate both past and present broadening life s base with unique testimony from hidden spheres of experience such as family relationships the informal culture of work or the lives of migrants This fully revised fourth edition of Paul Thompson s classic The Voice of the Past offers an invaluable tool for anyone using this approach **Transatlantic Anarchism during the Spanish Civil War and Revolution, 1936-1939** Morris Brodie,2020-04-08 Between 1936 and 1939 the Spanish Civil War showcased anarchism to the world News of the revolution in Spain energised a moribund international anarchist movement and activists from across the globe flocked to Spain to fight against fascism and build the revolution behind the front lines Those that stayed at home set up groups and newspapers to send money weapons and solidarity to their Spanish comrades This book charts this little known phenomenon through a transnational case study of anarchists from Britain Ireland and the United States using a thematic approach to place their efforts in the wider context of the civil war the anarchist movement and the international left **The Great War in History** Jay Winter,Antoine Prost,2020-12-03 The first comprehensive survey of interpretations of the Great War from 1914 to 2020 **A Living History of Immunology** Kendall Arthur Smith,2015-11-04 In the highly competitive world of biomedical science often the rush to publish and to be recognized as first with a new discovery concept or method is lost in the hurly burly of the moment as the maddening crowd moves on to the next new thing One of the great things about immunology today is that it has only become mature as a science within the last half century and especially within the past 35 years as a consequence of the revolution of molecular immunology which has taken place only since 1980 Consequently most of those who have contributed to our new understanding of how the immune system functions are still alive and well and still contributing Thus A Living History of Immunology collates many stories from the investigators who actually performed the experiments that have established the frontiers of immunology Accordingly this volume combats revisionist science by those who want to alter history by telling the stories a different way than actually happened In this regard one of the good things about science vs other disciplines is that we have the written record of what was done when it was done and by whom Even so we do not have the complete story or narrative of how and why experiments were done and what made the differences that led to success This volume captures and chronicles some of these stories from the past fifty years in immunology **Western European Perspectives on the Development of Public Relations** T. Watson,2015-04-08 The National Perspectives on the Development of Public Relations Other Voices series is the first to offer an authentic world wide view of the history of public relations It will feature six books five of which will cover continental and regional groups This book in the series focuses on Western Europe **Sustainable Building and Built Environments to Mitigate Climate Change in the Tropics** Tri Harso Karyono,Robert Vale,Brenda Vale,2017-02-21 This book offers a selection of the best papers presented during the

International conference on Mitigating and Adapting Built Environments for Climate Change in the Tropics held at Tanri Abeng University TAU Jakarta Indonesia March 2015 The book is divided into four main parts The first part deals with the general issue of climate change the cause and the ways to mitigate and to adapt the built environment for climate change in a number of countries Part 2 deals with the conceptual ways to mitigate building for climate change The ways to reduce cooling energy in tropical buildings by means of passive design Part 3 offers papers that examine the way to overcome disasters in the city caused by climate change The final part deals with the role of plants in mitigating and adapting built environments to climate change the use of plants trees and bushes to directly and indirectly reduce carbon emissions are discussed
