This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It emphasizes argument, research, and writing as extensions of activities that students already do in their everyday lives. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page. Friendly and authoritative, the fifth edition of *Student's Guide to Writing College Papers* combines decades of expert advice with new revisions based on feedback from students and teachers.
