*Developing the Emotionally Literate School*  
Katherine Weare, 2003-10-23

As someone with an interest in emotional literacy and in developing emotional literacy work in schools I found this book an impressive resource I would recommend it for those interested in this area those working within schools on emotional literacy and for school staff interested in developing their schools as emotionally literate organizations

**Debate** This is an authoritative and scholarly book that does not attempt to offer a simple fix it solution but one that should lead to an informed and workable approach that will address the needs and circumstances of individual schools as such I would recommend it as an essential read for anyone contemplating the research or promotion of emotional literacy in school

**Special Children** There is much to encourage exploration by schools educators and managers in an informed way

**Helpful appendices** list experienced agencies schools may approach in their work on emotional well being

**Emotional and Behavioural Difficulties** The book provides a useful guide to ways in which school policies for promoting emotional wellbeing can be developed

**Times Educational Supplement Teacher** This book is written in a refreshingly well balanced style and it deserves a similarly even handed review Katherine Weare never exaggerates a point or pretends to have found the Holy Grail Instead each argument is carefully counter pointed by a caveat

**Nurturing Potential** This is a handbook for teachers and LEAs with clearly headed sections useful tables and list of resources and contacts There are helpful suggestions for auditing emotional literacy in schools deciding whether to use off the shelf programmes tailoring programmes to the school's own needs and working with the wider community

**The Psychology of Education Review** Visionary and easy to read This vision resides in the authors convictions about the vital role schools can play in developing and widening the literacy of emotions

worth reading opens up a picture of what can be achieved in schools in the best interests of the children

**Young Minds Magazine** Katherine Weare brings a good track record to this useful handbook The full list of contacts sources of support and resources and the useful bibliography are clearly a product of her comprehensive knowledge of the field in UK and beyond They provide a solid platform for future researches

**Journal of In Service Education** Emotional literacy refers to our ability to understand and use information about our own and others emotional states with skill and competence It is increasingly accepted in schools and this book shows how it is central to mainstream education The author defines concepts and terms in ways that make sense to practitioners outlines the scientific evidence behind the concept explores ways in which schools can become more emotionally literate and demonstrates the educational benefits

The book is a practical and up to date account of ways in which schools can use emotional literacy to realize their goals of school improvement and effectiveness increased learning more efficient management of teaching and learning and improved relationships Katherine Weare shows how

emotional literacy can help address persistent educational problems such as emotional and behavioural disturbance school exclusion and teacher stress and disaffection Emotional literacy is relevant to mainstream education is most effective when it permeates the whole school culture ethos relationships and management It is as relevant for secondary as it is for primary students and applies to teachers and parents as well as to students     Learning Activities for Infants and Toddlers Betsy Squibb, Sally J. Deitz, 2000 Offers caregivers hands on appropriate learning activities that can be incorporated into the child s day     **Rhymes for Fingers and Flannel Boards** Louise Binder Scott, Jesse Jackson Thompson, 1984 Rhymes for finger plays and flannel boards     *Quick Change Displays* Paula Corbett, Leslee Huntsman, 1985-04 The ideas in this book offer easy to construct displays that involve the children in their creation and are built around the concept of reusing patterns and designs within a display to save time     **Wisconsin State Board of Health Quarterly Bulletin** Wisconsin.
