evidence and outcomes for those most in need in developing countries is at the heart of the United Nations Sustainable
Development Goal on Education SDG4 This timely volume brings together contributions on current empirical research and
analysis of emerging trends that focus on improving the quality of education through better policy and practice particularly
for those who need improved learning at the bottom of the pyramid LBOP This volume brings together academic research
experts government officials and field based practitioners National and global experts present multiple broad thematic
papers ranging from the effects of migration and improving teaching to the potential of educational technologies and better
metrics for understanding and financing education In addition local experts practitioners and policymakers describe their
own work on LBOP issues being undertaken in Kenya India Mexico and Ivory Coast The contributors argue persuasively that
learning equity is a moral imperative but also one that will have educational economic and social impacts They further
outline how achieving SDG4 will take renewed and persistent effort by stakeholders to use better measurement tools to
promote learning achievement among poor and marginalized children This volume builds on the second international
conference on Learning at the Bottom of the Pyramid LBOP2 It will be an indispensable resource for policymakers
researchers and government thinktanks and local experts as well as any readers interested in the implementation of learning
