## **Les Secrets Du Temps:**

Secret de la préscience du temps dévoilé et mis à la connaissance de tous, ou almanach perpétuel ... Par Mathieu (de la Haute-Garonne), 1869    **Du Gouvernement des Communautés Religieuses** Benoît VALUY,1865    ,    **The French Secret Services** ,1993-01-01

The French secret services have a long history dating back to the ancien régime With the founding of the Third Republic 1870 1940 the famous Second Bureau was created as France's principal intelligence gathering organization After the Germans invaded France in 1940 however the services splintered and diversified with Vichy agencies and Collaborationists the Free French and the internal resistance all in contention More recently since 1944 the activities of the reorganized French secret services have extended across a surprisingly wide area sometimes with spectacular results as in the Greenpeace Affair in New Zealand in 1985 This volume deals with the French secret services according to a chronological framework which reflects the evolution of the services which were created and transformed by both internal and external historical factors The bibliography commences with an examination of the origins and development of the French Intelligence Service from the ancien régime to 1870 It then considers the history and activities of the secret services during the following periods the Third Republic the Second World War the Fourth Republic and the Fifth Republic firstly between 1958 and 1981 and then during the 1980s and 1990s including the Greenpeace Affair This is an essential reference tool for all those interested in the history of intelligence agencies and national security in general and in the development of the French secret services in particular

Now Vincent Lavoie,2003-01-01 While the crisis that took place in photojournalism during the 1960s brought about a significant shift in the practices discourses and institutional structures of press photography it also affected the practices of artists specifically with regard to work devoted to revitalizing the depiction of events The art world attempted to revitalize the historical genre by undertaking its critical rereading in the spirit of restoring a tradition diminished by the mass media The problem may be expressed in these terms How can history be depicted bearing in mind that the media mainly photojournalism and the electronic press have claimed a monopoly of the genre unto themselves At issue is the sizeable problem of mass media omnipotence as an obligatory referential universe for historiographical artistic practices Today it seems impossible to depict the event in any way other than by accentuating or eschewing the formal attributes rhetorical artifices and ideological precepts of the mass media These approaches to addressing historical moments have been examined in this article both because they epitomize contemporary historical writing and for the most part they constitute critical responses to stereotyped depictions of events Above all they represent a paradigm shift the mass media's prerogatives for depicting historical moments has shifted towards the field of art Contemporary depictions of catastrophe crimes sensationalist news items terrorist attacks humanitarian disasters genocides common themes in many of the artistic projects represented in the 8th edition of the Mois de la Photo a Montreal have been especially striking in this respect For of all contemporary events catastrophes are the most likely to be spontaneously

propelled to the top of the news roster and the most susceptible to the various inflections of contemporary art photography
