New Ford Bronco Don Alexander,2025-04-15 In 1966 when Ford launched its first generation Bronco the other Detroit manufacturers didn't produce anything that was quite like it The new little Bronco had utility and charm and it was more refined than the Jeep of the era The larger second generation Bronco arrived in 1978 as a competitor to the Chevrolet Blazer As with the Blazer the Bronco shared several parts with its company's half ton truck that was offered at the time so the Bronco and Blazer lost some of their originality However the Bronco had a following and various generations of full size Broncos were manufactured following the development of the F 150 until 1996 At that time market forces dictated a change to a vehicle that was more practical such as the Ford Expedition which replaced the Bronco After a 25 year absence in the marketplace consumers decided that they were tired of large utilitarian SUVs and wanted a modern version of the original Bronco In response to consumer demand and nostalgia an entirely new generation of Bronco was launched in 2021 However the planning process began several years earlier Ford confirmed the return of the Bronco at the 2017 North American International Auto Show and spent the next four years building excitement for the vehicle's launch Many Broncos were backordered and wait times were long After the launch of the new sixth generation Bronco the enthusiast community and
