Potter,Sarah Bidgood,2018-10-09 Despite their Cold War rivalry the United States and the Soviet Union frequently engaged
in joint efforts to prevent the spread of nuclear weapons Leaders in Washington and Moscow recognized that nuclear
proliferation would serve neither country s interests even when they did not see eye to eye in many other areas They likewise
understood why collaboration in mitigating this nuclear danger would serve both their own interests and those of the
international community This volume examines seven little known examples of US Soviet cooperation for non proliferation
including preventing South Africa from conducting a nuclear test developing international safeguards and export control
guidelines and negotiating a draft convention banning radiological weapons It uses declassified and recently digitized
archival material to explore in depth the motivations for and modalities for cooperation under often adverse political
circumstances Given the current disintegration of Russian and US relations including in the nuclear sphere this history is
especially worthy of review Accordingly the volume s final chapter is devoted to discussing how non proliferation lessons
from the past can be applied today in areas most in need of US Russian cooperation **Companion Reader on Violence**
