50 Fantastic Ideas for Forest School Jamie Victoria Barnes, 2020-03-05 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. Jamie Victoria Barnes, creator of The Childcare Guru, uses her wealth of knowledge to present an invaluable resource filled with activities that spark creativity and encourage development and learning in a natural environment, perfect for helping young children enjoy a healthy and balanced lifestyle. The benefits of rich outdoor learning experiences are second to none. Outdoor learning offers holistic development for every child and in a fast paced world heavily focussed on technology, forest schools provide a stimulating and relaxed environment to learn in, away from time pressures and electric devices. 50 Fantastic Ideas for Forest School presents full colour photographs and easy to follow activities from Forest School TV to natural art, self portraits to get young children outside and reconnecting with the natural world, supporting their emotional and spiritual wellbeing. With over 40 books in the 50 Fantastic Ideas series, there's something for everyone, whether you're a practitioner looking for new ideas or you want to try out a popular well loved activity with a new twist. Each book offers a wide range of fun and creative activities to carry out with children aged 0-5 years, with lists of resources, step by step instructions and information about the benefits for children. **Play The Forest School Way** Jane Worroll, Peter Houghton, 2016-11-29 Woodland games, crafts and other outdoor adventures from the Forest School for parents and their children. The rise of the grassroots Forest School movement in recent years is part of a groundswell of concern about the wellbeing of our children, with many media scare stories about child obesity, nature deficit disorder as described in *Last Child in the Woods* and lack of exposure to risk. This outdoor adventure manual is the antidote. Packed full of ideas from making nature jewelry and whittling a bow and arrow to building a shelter and foraging for food, it also celebrates the Forest School philosophy of encouraging self esteem, confidence and social skills through engagement with nature. The activities contain variations for varied age groups, small groups like play dates or birthday parties as well as things to do with just one or two children. Parents are encouraged to guide the play, but the activity instructions are written in a simple style with fun illustrations so that kids can take the lead as well. *Feast in the Forest: Gourmet Foraging* Sean Clover, Imagine a world where your dinner table is graced with the flavors of wild garlic pesto, a creamy chanterelle risotto and a berry tart bursting with the sweetness of summer. These are not just culinary dreams, they are the realities of gourmet foraging. This book is your guide to unlocking the secrets of the wild kitchen where nature's bounty transforms into mouthwatering dishes. The Forest for the Trees, **100 Ideas for Early Years Practitioners: Outdoor Play** Julie Mountain, 2015-05-21 Children benefit hugely from regular, frequent and progressive outdoor play and it should therefore be an integral part of their early education.
