Globalisation of Agriculture Guy M. Robinson, Doris A. Carson, 2015-06-29 This Handbook provides insights to the ways in which globalisation is affecting the whole agri food system from farms to the consumer It covers themes including the physical basis of agriculture the influence of trade policies the nature of globalis **Globalisation, Agriculture and**

Development Matthew Tonts, Muhammed Abu B. Siddique, 2011-01-01 This book explores the links between globalization agriculture and development in a number of contemporary Asia Pacific nations It highlights the complex and diversified nature of agricultural change in these contexts and the ways in which this shapes patterns of economic and social development Globalisation Agriculture and Development shows that while agriculture continues to play an important role in local regional and national development both the industry and the communities it supports are facing an increasing number of economic social and environmental challenges **Geographies of Development** Robert Potter, Tony Binns, Jennifer Elliott, Etienne Nel, David Smith, 2019-03-07 Now in its fourth edition Geographies of Development An Introduction to

Development Studies remains a core balanced and comprehensive introductory textbook for students of Development Studies Development Geography and related fields This clear and concise text encourages critical engagement by integrating theory alongside practice and related key topics throughout It demonstrates informatively that ideas concerning development have been many and varied and highly contested varying from time to time and from place to place Clearly written and accessible for students who have no prior knowledge of development the book provides the basics in terms of a geographical approach to development what situation is where when and why Over 200 maps charts tables textboxes and pictures break up the text and offer alternative ways of showing the information The text is further enhanced by a range of pedagogical features chapter outlines case studies key thinkers critical reflections key points and summaries discussion topics and further reading Geographies of Development continues to be an invaluable introductory text not only for geography students but also anyone in area studies international studies and development studies

Unravelling desertification M. Juntti, 2023-08-28 This book analyses processes of desertification from a social science perspective and unravels the policy related to drivers of desertification Desertification is addressed both as a concept surrounded by a multitude of different discourses and as a tangible unsustainable process that is connected to a complex set of policies and changing land management practices The focus is on Southern Europe where desertification has been a long standing problem in many areas and where in some places the loss of productive capacity has worsened considerably over the last few decades By focusing on four specific case study areas in Portugal Spain Italy and Greece the scope of the book will cover the human dimension of desertification exploring in particular how the framework of existing policies has affected land management decisions and desertification processes The emphasis will be on how policies may have contributed to desertification alleviation and mitigation as well as to a worsening of desertification processes By using an actor network approach the book specifically investigates the importance of networks of actors that shape the nature and direction of policies that affect desertification processes In this sense this book aims at providing a first glance into the complex policy economic and socio cultural networks that operate at the local regional and national levels in areas of Southern Europe affected by desertification and to analyse how these networks hinder or promote the implementation of policies aimed at alleviating the threat of desertification With its broad remit this exciting book will appeal to many different audiences not only including academics and students of various disciplines but also practitioners at the local regional Mediterranean and international e g EU spatial levels in a variety of fields such as environmental and agricultural policy making agricultural extension services farming organisations environmental NGOs media representatives and many other environmental stakeholder groups

Sustainable Rural Systems Guy Robinson, 2016-04-01 In a neo liberal era where society in the Developed World is reliant on mass produced cheap foods and living standards are based on high consumption of non renewable energy and materials this book investigates the growing significance of sustainable systems in rural areas Drawing on a wide range of topical case studies primarily in the UK it

provides an in depth analysis of the progress made towards sustainability within rural systems focusing specifically upon sustainable agriculture and sustainable rural communities The authors provide an overview of the various systems of sustainability currently being applied in the Developed World They highlight key environmental economic and social issues including post productivism alternative food networks organic farming GM foods conservation rural development programmes sustainable tourism local training schemes and community participation The various studies provide important lessons in the ongoing search for greater sustainability and suggest positive directions for future policy practice

Greening Cities Puay Yok Tan, Chi Yung Jim, 2017-03-29 This book offers an overview of recent scientific and professional literature on urban greening and urban ecology focusing on diverse disciplines such as landscape architecture geography urban ecology urban climatology biodiversity conservation urban governance architecture and urban hydrology It includes contributions in which academics public policy experts and practitioners share their considerable knowledge on the multi faceted aspects of greening cities The greening of cities has witnessed a global resurgence over the past two decades and has made a significant contribution to urban liveability and sustainability as well as increasing resilience As urban greening efforts continue to expand it is useful to promote recent advances in our understanding of various aspects of planning design and management of urban greenery but at the same time it is also important to realize that there are important gaps in our knowledge and that further research is needed The book is organized in three main parts concepts functions and forms of urban greening The first part examines the historical roots of greening cities and how the burgeoning field of urban ecology can contribute useful principles and strategies to guide the planning design and management of urban greening The second part shifts the focus to the diverse range of services the functions provided by urban greening such as those related to urban climate urban biodiversity human health and community building The final part explores conventional often neglected but important forms of urban greenery such as urban woodlands and urban farms as well as relatively recent forms of urban greenery like those integrated with buildings and waterways It offers a ready reference resource for researchers practitioners and policy makers to grasp the critical issues and trigger further studies and applications in the quest for high performance green cities

The Economic Geography of the UK Neil Coe, Andrew Jones, 2010-08-24 With the UK still facing the repercussions of the 2007 economic downturn Coe and Jones text is a timely engaging discussion of the key issues facing the UK economy from a purely geographical perspective written by some of the leading academics in the field With pedagogical features to facilitate learning including further reading and chapter aims the text explores the complex connections that constitute the UK economy including the city and finance the uneven development of the UK the UK economy's links to the European Union and its wider ties to the global economy Written for geography students studying modules on economic geography and the human geography of the UK the text is a vibrantly written easy to understand analysis of the current and future challenges that face the contemporary UK economy Includes a preface by Doreen Massey
