Geography P2014 Memorandum Final Examination:

The Urban Political Theresa Enright, Ugo Rossi, 2017-11-01 This book examines the political and economic trajectories of cities following the 2008 financial crisis. The authors claim that in this era which they dub late neoliberalism urban spaces, institutions, subjectivities and organizational forms are undergoing processes of radical transformation and recomposition. The volume deftly argues that the urban political horizon of late neoliberalism is ambivalent, marked by many progressive mobilizations for equality and justice but also by regressive forces of austerity, exploitation and domination. Taken for a Ride Matteo Rizzo, 2017 How does public transport work in an African city under neoliberalism? Who owns what in it? Who has the power to influence its shape and changes in it over time? What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam? These are the main questions that inform this in-depth case study of Dar es Salaam's public transport system over more than forty years. The growth of cities and informal economies are two central manifestations of globalization in the developing world. Taken for a Ride addresses both, drawing on long-term fieldwork in Dar es Salaam, Tanzania, and charting its public transport system's journey from public to private provision. This new addition to the *Critical Frontiers of Theory, Research and Practice in International Development Studies* series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport. It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector. The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights. A longitudinal study of workers throws light on patterns of occupational mobility in the sector. The book ends with an analysis of the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it. Taken for a Ride is an interdisciplinary political economy of public transport exposing the limitations of market fundamentalist and postcolonial approaches to the study of economic informality, the urban experience in developing countries and their failure to locate the agency of the urban poor within their economic and political structures. It is both a contribution to and a call for the contextualised study of neoliberalism. *The Politics of Immigration* Tom K. Wong, 2017 Immigration has been deeply woven into the fabric of American nation building since the founding of the Republic. Indeed, immigrants have played an integral role in American history but they are also intricately tied to America's present and will feature prominently in America's future. Immigration can shape a nation. Consequently, immigration policy can maintain, replenish and even reshape it. Immigration policy debates are thus seldom just about who to let in and how many, as a nation's immigration policies can define its identity. This is what helps breathe fire into the politics of immigration. Against this backdrop, political parties promote their own narratives about what the immigration policies of a nation of immigrants should be while undermining the contrasting narratives of political opponents. Racial and ethnic groups mobilize

for political inclusion as immigration increases their numbers but are often confronted by the counteractive mobilization of nativist groups Legislators calibrate their positions on immigration by weighing traditional electoral concerns against a new demographic normal that is reshaping the American electorate At stake are not just what our immigration policies will be but also what America can become What are the determinants of immigration policymaking in the United States The Politics of Immigration focuses the analytical lens on the electoral incentives that legislators in Congress have to support or oppose immigration policy reforms at the federal level In contrast to previous arguments Tom K Wong argues that contemporary immigration politics in the United States can be characterized by three underlying features the entrenchment of partisan divides among legislators on the issue of immigration the political implications of the demographic changes that are reshaping the American electorate and how these changes are creating new opportunities to define what it means to be an American in a period of unprecedented national origins racial and ethnic and cultural diversity

EU and Russian Hegemony in the 'Shared Neighbourhood' Isabell Burmester, 2025-02-28 This open access book examines the EU's and Russia's policies in Eastern Europe and the South Caucasus through the prism of hegemony a concept that it applies to both regional actors The study cross fertilises the literatures on the EU neighbourhood policy Russia's foreign policy and the scholarship on power in international relations to arrive at an innovative conceptualisation of the mechanisms of hegemonic power The comparative lens of the analysis leads to novel findings that advance our understanding of the EU's and Russia's behaviour in the EU's Eastern neighbourhood In this book the existing separate theorisations are subsumed under more generic terms and concepts thereby rendering EU and Russian modes of influence comparable for empirical analysis The comprehensive conceptual framework of hegemonic power in shared neighbourhoods is based on three ideal typical mechanisms of hegemonic influence coercion prescription and co optation To understand the nature of EU and Russian hegemony in the region the uses of the three mechanisms by Russia and the EU towards two neighbourhood countries are compared The focus is laid on EU and Russian actions towards Moldova and Armenia since the beginning of the 2000s and the local perceptions of these actions Thus the comparative case study provides insights into the longer developments in this regional order that led to Russia's full scale invasion of Ukraine on 24 February 2022 The book is

intended for scholars and students interested in understanding the broader context of Russia's war in Ukraine. Because of its contribution to the debate on regional powers in shared neighbourhoods, it is particularly useful for researchers analysing the changing power dynamics and hegemonic behaviour in this regional order. Furthermore, it offers other scholars an analytical framework to work with when analysing the policies of different regional powers.

Moscow under Construction Robert Argenbright, 2016-07-26. Moscow under Construction explores the growth of place-based opposition to destructive redevelopment practices in Moscow and the consequent changes in city's governance regime. The groups of citizens discussed in this study have struggled to defend homes, neighborhoods, heritage buildings and historic districts, and in the process they've built up civil society and advanced democratization. Heritage preservationists and other aggrieved Muscovites have organized themselves into initiative groups and social associations to protect specific places in the city and to influence the planning process, and these place defenders have become more confident and capable as citizens. Their activities also have caused Moscow's city government to shift along the political spectrum away from highly authoritarian and opaque habits of ruling toward a more open and collaborative governance regime.

The Difference that Gender Makes to International Peace and Security Sara E. Davies, Nicole George, Jacqui True, 2018-10-29 Fifteen years after the adoption of UN Security Council Resolution 1325 which establishes the Women Peace and Security agenda there is now a need to assess the impacts of gender equality efforts and to understand why and how gender equality reforms have advanced to the extent that they have This book examines how international peace and security is re envisioned from a gender perspective by mostly focusing on the nuances presented by the Asia Pacific region It argues that despite the diversity of political socio cultural and economic systems in the Asia Pacific women and girls in the region continue to experience similar forms of insecurities Several countries in the Asia Pacific have demonstrated relative peace and stability In addition women s leadership and participation in peacebuilding are and continue to be increasingly recognized in the region too However as the chapters in this book demonstrate applying a critical gender analysis allows for the interrogation of veneers of political order which can then mask or normalise everyday gendered insecurities The analysis of country cases such as Myanmar Cambodia and Fiji underscores a rethinking of the political order in the Asia Pacific which leaves existing gender inequalities intact The chapters in this book were originally published in a special issue in the International Feminist Journal of Politics
