**Sticky Power** Daniel Haberly, Dariusz Wójcik, 2022-05-02 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Although modern civilization revolves around money the nature of money is paradoxical It is nothing more than a representation of and medium for decentralized networks of social trust but its production is controlled by highly centralized networks of firms places and governments and there is never enough of it to go around Moreover given that the creation of money as credit is based on expectations money is at its heart an instrument for human agency to change the future However the financial systems that produce money are deeply rooted in the past and perpetuate themselves through history Sticky Power seeks to deepen our understanding of the paradox of money by introducing a novel conceptual lens Global Financial Networks to cast new light on the geography history politics and sociology of finance from the Middle Ages to the global financial crisis and beyond It shows that the power of finance is inherently sticky apparently new innovations such as offshore finance actually date back centuries and global financial networks more broadly have adapted to the rise and fall of empires and the development of new technologies while changing surprisingly little in their basic character or at most changing very slowly Haberly and Wójcik argue that a recognition of the mechanics of this durability calls for a new approach to reforming finance one less reactively focused on regulation and more proactively focused on building new institutional systems with a long term sticky power of their own

**New Critical Spaces in Transitional Justice** Arnaud Kurze, Christopher K. Lamont, 2019-01-10 Since the 1980s transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world Over time post conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty retribution and reconciliation Gathering work from contributors in international law political science sociology and history New Critical Spaces in Transitional Justice addresses issues of space and time in transitional justice studies It explains new trends in responses to post conflict and post authoritarian nations and offers original empirical research to help define the field for the future

**The Economics of the**

Global Defence Industry Keith Hartley, Jean Belin, 2019-11-08 This book makes an original contribution to our knowledge of the world's major defence industries. Experts from a wide range of different countries from the major economies of North America and Western Europe to developing economies and some unique cases such as China, India, Singapore, South Africa and North Korea describe and analyse the structure, conduct and performance of the defence industry in that country. Each chapter opens with statistics on a key nation's defence spending, its spending on defence R D and on procurement over the period 1980 to 2017, allowing for an analysis of industry changes following the end of the Cold War. After the facts of each industry, the authors describe and analyse the structure, conduct and performance of the industry. The analysis of structure includes discussions of entry conditions, domestic monopoly, oligopoly structures and opportunities for competition. The section on conduct analyses price, non-price competition, including private and state-funded R D and performance, incorporates profitability, imports and exports together with spin-offs and technical progress. The conclusion explores the future prospects for each nation's defence industry. Do defence industries have a future? What might the future defence firm and industry look like in 50 years time? This volume is a vital resource and reference for anyone interested in defence economics, industrial economics, international relations, strategic studies and public procurement. Ideology and

Meaning-Making under the Putin Regime Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological characteristics of the current Russian government as well as what is happening inside the mind of Vladimir Putin. Refusing pundits' clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs, *Ideology and Meaning Making under the Putin Regime* offers a critical genealogy of ideology in Russia today. Marlene Laruelle provides an innovative multi-method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies. *Ideology and Meaning Making under the Putin Regime* reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions. By placing the current Russian regime into a broader context of different strains of strategic culture, ideological interest groups and intellectual history, this book gives readers key insights into how the Russo-Ukrainian War became possible and the role ideology played in enabling it. Africa Yearbook Volume 14, 2018-12-24

The Africa Yearbook covers major domestic political developments, the foreign policy and socio-economic trends in sub-Saharan Africa, all related to developments in one calendar year. The Yearbook contains articles on all sub-Saharan states, each of the four sub-regions (West, Central, Eastern, Southern Africa) focusing on major cross-border developments and sub-regional organizations, as well as one article on continental developments and one on African-European relations. While the articles have thorough academic quality, the Yearbook is mainly oriented to the requirements of a large range of target groups: students, politicians, diplomats, administrators, journalists, teachers, practitioners in the field of development aid, as well as business people. **The Politics**

**of International Interaction with de facto States** Eiki Berg, James Ker-Lindsay, 2020-05-21 This comprehensive volume is the first systematic effort to explore the ways in which recognised states and international organisations interact with secessionist de facto states while maintaining the position that they are not regarded as independent sovereign actors in the international system. It is generally accepted by policy makers and scholars that some interaction with de facto states is vital if only to promote a resolution of the underlying conflict that led to their decision to break away and yet this policy of engagement without recognition is not without complications and controversy. This book analyses the range of issues and problems that such interaction inevitably raises. The authors highlight fundamental questions of sovereignty, conflict management and resolution, settlement processes, foreign policy and statehood. This book will be of interest to policy makers, students and researchers of international relations. It was originally published as a special issue of the journal *Ethnopolitics*.

*Resource and Environmental Management* Bruce Mitchell, 2019 In order to optimally manage the environment and natural resources it is vitally important to recognize that there is much more to consider than just the environment itself and the natural resources it provides. A key consideration is also the interrelationship between natural ecosystems and human involvement and behavior. This interaction is where the field of environmental resource management comes into play: the complex ecological and sociological systems of the natural world intertwined. The purpose of this book is to consider such matters and to help readers develop their own capacities as environmental managers and stewards. Bruce Mitchell's textbook *Resource and Environmental Management* served as the gold standard for many environmental science courses when the first edition published in 1997. Now twenty years later, an updated third edition allows for the inclusion of recent developments. The book covers the basic theories and concepts of environmental resource management and guides students to be able to apply those concepts to practical situations. By covering basic theories and concepts and by using case studies to show how these have been applied, Bruce Mitchell's new edition seeks to ensure that students have competence in both aspects. The text enhances the reader's capacity to conduct practice and research in resource and environmental management.

**Understanding the Social World** Russell K. Schutt, 2019-12-20 *Understanding the Social World: Research Methods for the 21st Century* is a concise and accessible introduction to the process and practice of social science research. The Second Edition of this fast-paced and visually engaging text discusses newly popular research methods, highlights the fascinating work being conducted by contemporary social researchers, and includes enhanced tools for learning in the text and online.

*Conflict Areas in the Balkans* Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans, such as the solution to the status of Kosovo, is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern-Western relations. On the other hand, a successful solution to the problem in the Balkans could serve as a model for solving the Muslim-Christian tensions elsewhere in the world. It is the intention of this book to contribute proposals for solutions to the problems of the Balkans. The starting principle for the solutions to be effective is

that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union

**Modern Sufis and the State** Katherine Pratt Ewing, Rosemary R. Corbett, 2020-08-25 Sufism is typically thought of as the mystical side of Islam In recent years it has been held up as a supposedly peaceful alternative to the spread of forms of Islam associated with violence an embodiment of democratic ideals of tolerance and pluralism Are Sufis in fact as otherworldly and apolitical as this stereotype suggests Modern Sufis and the State brings together a range of scholars including anthropologists historians and religious studies specialists to challenge common assumptions that are made about Sufism today Focusing on India and Pakistan within a broader global context this book provides locally grounded accounts of how Sufis in South Asia have engaged in politics from the colonial period to the present Contributors foreground the effects and unintended consequences of efforts to link Sufism with the spread of democracy and consider what roles scholars and governments have played in the making of twenty first century Sufism They critique the belief that Salafism and Sufism are antithetical offering nuanced analyses of the diversity multivalence and local embeddedness of Sufi political engagements and self representations in Pakistan and India Essays question the portrayal of Sufi shrines as sites of toleration peace and harmony exploring cases of tension and conflict A wide ranging interdisciplinary collection Modern Sufis and the State is a timely call to think critically about the role of public discourse in shaping perceptions of Sufism
