Agriculture Organization of the United Nations,2016 Since the 1970s and 1980s community based forestry has grown in popularity based on the concept that local communities when granted sufficient property rights over local forest commons can organize autonomously and develop local institutions to regulate the use of natural resources and manage them sustainably Over time various forms of community based forestry have evolved in different countries but all have at their heart the notion of some level of participation by smallholders and community groups in planning and implementation This publication is FAO s first comprehensive look at the impact of community based forestry since previous reviews in 1991 and

2001 It considers both collaborative regimes forestry practised on land with formal communal tenure requiring collective action and smallholder forestry on land that is generally privately owned The publication examines the extent of community based forestry globally and regionally and assesses its effectiveness in delivering on key biophysical and socioeconomic outcomes i e moving towards sustainable forest management and improving local livelihoods The report is targeted at policy makers practitioners researchers communities and civil society China's Gas Development Strategies Shell International B.V.,Development Research Center DRC,2017-11-23 This book is open access under a CC BY 4 0 license This book examines how China can increase the share of natural gas in its energy system China s energy strategy has global ramifications and impact and central to this strategy is the country s transition from coal to gas The book presents the culmination of a two year collaboration between the Development Research Center of the State Council DRC and Shell With the Chinese government s strategic aim to increase the share of gas in the energy mix from 5 8% in 2014 to 10% and 15% in 2020 and 2030 respectively the book outlines how China can achieve its gas targets Providing both quantifiable metrics and policy measures for the transition it is a much needed addition to the literature on Chinese energy policy The research and the resulting recommendations of this study have fed directly into the Chinese government s 13th Five Year Plan and provide unique insights into the Chinese government and policy making Due to its global impact the book is a valuable resource for policy makers in both China and the rest of the world **The Bodies Poetic** Anna Osterholtz,2025-05-10 This book examines the intricate relationships between the living and the dead revealing how these interactions shape group identities and facilitate ongoing negotiations of self and community Beginning with a rich exploration of bioarchaeological theories this volume introduces an enriched Poetics model which deepens our understanding of not just skeletal remains but the broader contexts that imbue bodies with social significance and how those bodies in turn can produce socially significant changes By emphasizing the roles of performance and ritual the work illustrates how the dead serve as powerful tools in the creation and maintenance of social structures Through compelling case studies of ancient and modern mortuary practices it highlights the changing meanings of the body across different historical and cultural landscapes The volume demonstrates that while our interpretations may shift the body remains a profound source of meaning and identity By analyzing patterns of modification and representation this book provides invaluable insights into social change and how group identity is forged **Climate Adaptation Investment and the Community Reinvestment Act** Jesse M. Keenan ,Elizabeth Mattiuzzi,2019-06-17 Climate change is already causing disruption to regional economic activity Low to moderate income populations are highly vulnerable to these impacts in part because they often have fewer resources to adapt The stability and prosperity of local economies in the face of climate change depends on how well the public private and civic sectors can come together to respond to the shocks and stresses of climate change Collaborative efforts to fund climate adaptation not only reduce the burden on highly vulnerable populations but they also offer the opportunity for co benefits within a broader portfolio of community

development ambitions This report introduces the field of climate adaptation finance and explains its connection to the Community Reinvestment Act CRA within the context of the disaster provisions guiding pre and post disaster investments In a demonstration of need the report provides evidence of the spatial concentration of disaster declarations in areas with CRA eligible populations Existing innovative and hypothetical investments are highlighted within a broader context for stimulating greater pre disaster planning and investment Community development practitioners investors and policymakers will find this report useful for sparking new ideas about how to develop partnerships and funding streams for CRA eligible activities in both eligible communities and areas within a federal disaster declaration that will reduce the vulnerability and increase the adaptive capacity of communities to the impacts of climate change
