**The Schoolmasters Yearbook and Directory** ,1908      **Partitions** Arie M. Dubnov,Laura Robson,2019-01-29 Partition the physical division of territory along ethno religious lines into separate nation states is often presented as a successful political solution to ethnic conflict In the twentieth century at least three new political entities the Irish Free State the Dominions later Republics of India and Pakistan and the State of Israel emerged as results of partition This volume offers the first collective history of the concept of partition tracing its emergence in the aftermath of the First World War and locating its genealogy in the politics of twentieth century empire and decolonization Making use of the transnational framework of the British Empire which presided over the three major partitions of the twentieth century contributors draw out concrete connections among the cases of Ireland Pakistan and Israel the mutual influences shared personnel economic justifications and material interests that propelled the idea of partition forward and resulted in the violent creation of new post colonial political spaces In so doing the volume seeks to move beyond the nationalist frameworks that served in the first instance to promote partition as a natural phenomenon      **Parliamentary Papers** Great Britain. *Egypt and the Struggle for Power in Sudan* Rami Ginat,2017-08-24 For decades the doctrine of the Unity of the Nile Valley united Egyptians of a variety of political and nationalist backgrounds Many Egyptians regarded Sudan as an integral part of their homeland and therefore battled to rid the entire Nile Valley of British imperialism and unite its inhabitants under the Egyptian crown Here Rami Ginat provides a vital and important revised account of the history of Egypt s colonialist struggle and their efforts to prove categorically that the Nile Valley constituted a single territorial unit These were clustered around several dominant theoretical layers history geography economy culture and ethnography This book for both Middle Eastern and African historians uses a mixture of Arabic and English sources to critically examine the central stages in the historical development of Egypt s doctrine concentrating on the defining decade 1943 1953 that first witnessed both the pinnacle of the doctrine s struggle and the subsequent shattering of a consensual nationalist dream      **The Publishers'**

*Small Business and the Federal Procurement System* United States. Congress. House. Committee on Small Business. Subcommittee on General Oversight,1981      *The Making of a History* Gregory M. Tobin,2014-09-10 Walter Prescott Webb became one of the best known interpreters of the American West following the publication of *The Great Plains* in 1931 That book remained one of the outstanding studies of the region for decades and attracted considerable attention over the years for its unusual emphasis on the impact of geographic factors on the process of settlement Using manuscript sources some of which had not previously been available Gregory M Tobin has traced the elements that went into the planning and writing of *The Great Plains* and that account for its distinctive approach to the writing of a regional history Tobin emphasizes two aspects of Webb s life that molded the historian s outlook his early family life and community connections in West Texas and

his admiration for the ideas of scholar Lindley Miller Keasbey Webb reacted strongly against the assumption that the only cultural values of any real worth emanated from the urban and sophisticated East he was determined to write the history of his own people in a way that would reveal the scale of their anonymous contribution to American civilization By reverting to Keasbey's stress on the relationship between natural environment and social institutions Webb broadened his study to take in what he believed to be a distinct geographic environment The result was *The Great Plains* an assertion of individual and regional identity by a man with a personal stake in establishing the image of a distinctive Plains civilization Although *The Making of a History* is not a full biography of Walter Prescott Webb it is the first biographically oriented study of a man regarded as one of the twentieth century's major western historians It places his development within the framework of his intellectual and social setting and in a sense subjects his career to the same type of scrutiny that he advocated as the basis of the study of evolving cultures *Journal of the Society of Arts* ,1865 *Census Bureau Methodological Research* United States. Bureau of the Census,1969 *Going Public* Samuel Kernell,2006-10-18 Presidents are uniquely positioned to promote themselves and their policies directly to the public Using sympathetic crowds as a backdrop a president can rally public opinion to his side along the way delivering a subtle yet unmistakable message to his intended audience in Congress Samuel Kernell shows how going public remains a potent weapon in the president's arsenal both for advancing his own agenda and blocking initiatives from his political adversaries in Congress In his highly anticipated fourth edition Kernell delivers thorough analysis and detailed background on how this strategy continues to evolve given the intense polarization of Congress and the electorate as well as changes in communications technology He considers the implications of both factors especially in combination on the future of presidential leadership and weighs the lessons of 9 11 on going public in foreign affairs ***Proceedings of the Royal Geographical Society and Monthly Record of Geography*** Royal Geographical Society (Great Britain),1877 ***Journals of the Legislative Assembly of the Province of Canada*** Canada.
