Apduhan, Osvaldo Gervasi, 2014-07-01 The six volume set LNCS 8579 8584 constitutes the refereed proceedings of the 14th International Conference on Computational Science and Its Applications ICCSA 2014 held in Guimar es Portugal in June July 2014 The 347 revised papers presented in 30 workshops and a special track were carefully reviewed and selected from 1167 The 289 papers presented in the workshops cover various areas in computational science ranging from computational science technologies to specific areas of computational science such as computational geometry and security The New Oxford Handbook of Economic Geography Dariusz Wójcik, 2018-01-04 The first fifteen years of the 21st century have thrown into sharp relief the challenges of growth equity stability and sustainability facing the world economy In addition they have exposed the inadequacies of mainstream economics in providing answers to these challenges This volume gathers over 50 leading scholars from around the world to offer a forward looking perspective of economic geography to understanding the various building blocks relationships and trajectories in the world economy The perspective is at the same time grounded in theory and in the experiences of particular places Reviewing state of the art of economic geography setting agendas and with illustrations and empirical evidence from all over the world the book should be an essential reference for students researchers as well as strategists and policy makers Building on the success of the first edition this volume offers a radically revised updated and broader approach to economic geography With the backdrop of the global financial crisis finance is investigated in chapters on financial stability financial innovation global financial networks the global map of savings and investments and financialization Environmental challenges are addressed in chapters on resource economies vulnerability of regions to climate change carbon markets and energy transitions Distribution and consumption feature alongside more established topics on the firm innovation and work The handbook also captures the theoretical and conceptual innovations of

the last fifteen years including evolutionary economic geography and the global production networks approach Addressing the dangers of inequality instability and environmental crisis head on the volume concludes with strategies for growth and new ways of envisioning the spatiality of economy for the future      Financial Cultures and Crisis Dynamics Bob Jessop,Brigitte Young,Christoph Scherrer,2014-10-17 The recent financial crisis exposed both a na ve faith in mathematical models to manage risk and a crude culture of greed that embraces risk This book explores cultures of finance in sites such as corporate governance hedge funds central banks the City of London and Wall Street and small and medium enterprises It uses different methods to explore these cultures and their interaction with different financial orders to improve our understanding of financial crisis dynamics The introduction identifies types of cultural turn in studies of finance Part I outlines relevant research methods including comparison of national cultures viewed as independent variables cultural political economy and critical discourse and narrative policy analysis Part II examines different institutional cultures of finance and the cult of entrepreneurship Part III offers historical comparative and contemporary analyses of financial regimes and their significance for crisis dynamics Part IV explores organizational cultures modes of calculation and financial practices and how they shape economic performance and guide crisis management Part V considers crisis construals and responses in the European Union and China This book s great strength is its multi faceted approach to cultures of finance Contributors deploy the cultural turn creatively to enhance comparative and historical analysis of financial regimes institutions organizations and practices as well as their roles in crisis generation construal and management Developing different paradigms and methods and elaborating diverse case studies the authors illustrate not only how and why culture matters but also how its significance is shaped by different financial regimes and contexts      Crossing Borders Mimi Sheller,Kevin Hannam,2018-10-18 Crossing Borders examines how translocal transnational and internal borders of various kinds distribute uneven capabilities for moving dwelling and circulating The contributors offer nuanced understandings of the politics of mobility across various kinds of borders and forms of cultural circulation showing how people experience and practice crossing many different borders Several chapters draw on interviews and ethnographic methods to analyze transnational migration while others focus on material relations and cultural practices Rather than the usual narrative of mobility as a kind of freedom border crossing emerges here as an instrumental practice for building translocal livelihoods a tactic for simply getting by and a material practice potentially generating new forms of future sociality Ultimately these diverse perspectives on crossing borders offer new ways to think about the mobility of political relations and the politics of mobile relations in a world of growing circulation across borders but also flexible forms of re bordering This book was originally published as a special issue of Mobilities      *The EU's Government of Industries* Bernard Jullien,Andy Smith,2014-08-13 To what extent is business activity governed at a European scale Since the advent of the recent economic crisis the EU s choices about the euro debt ratios and interest rates have caught the headlines and highlighted the

importance of EU decision making arenas However these macro economic events actually tell us only part of the story about the extent to which business activity is now governed at a European scale Based upon original research on four manufactured or processed goods industries cars wine pharmaceuticals and aquaculture and driven by theory that is constructivist institutionalist and sociological this book sets out to analyse just what Europe governs by whom and why In doing so it reveals three recurrent features of the European government of industries its omnipresence its incompleteness and its de politicization The authors show that the many gaps in the EU s mode of governing industries stem from struggles over economic doctrine as well as the continued unwillingness of many actors to accord the EU a legitimacy to act politically in the name of industrial government This book will be of key interest to scholars and students of European Studies and Political Economy as well as those studying Political Science Economics Sociology and Business Studies

**Handbook of Critical Policy Studies** Frank Fischer, Douglas Torgerson, Anna Durnová, Michael Orsini, 2015-12-18 Critical policy studies as illustrated in this Handbook challenges the conventional approaches public policy inquiry But it offers important innovations as well in particular its focus on discursive politics policy argumentation and deliberation and interpretive modes of analysis

**The Discourse of Neoliberalism** Simon Springer, 2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved

**The Rent Curse** Richard M. Auty, Haydn I. Furlonge, 2019 This book compares models of low rent and high rent development to explain the divergent growth of regions and to query the continued prioritization of industrialization over agriculture and export services as the engine of economic prosperity

**Cultural Studies and the 'Juridical Turn'** Jaafar Aksikas, Sean Andrews, 2018-02-02 The relationship between culture and the law has become an emergent concern within contemporary Cultural Studies as a field but the recent focus has been largely limited to the role played by cultural representations and identity politics in the legitimation of legal discourse and policies While continuing this emphasis this collection also looks at the law itself as a cultural production tracing some of the specific contours of its function in the last three decades It argues that with the onset of neoliberal or late capitalism the law has taken on a new specificity and power leading to what we are calling the juridical turn where the

presumed legitimacy of the law makes other forms of hegemonic struggle secondary The collection not only charts the law and cultural policy as they exert their powerful if often overlooked influence on every aspect of society and culture but it also seeks to define this important field of study and demonstrate the substantial role law plays in the production of our social and cultural worlds In this trailblazing collection of contributions by leading and emerging figures in the field of cultural legal studies chapters examine various ways in which this process is manifested such as U S legislation and Supreme Court Decisions on gay marriage immigration consumer finance welfare copyright and so called victim s rights along with international comparisons from Europe and Latin America It promises to be a pathbreaking analysis of our juridically determined conjuncture This book was originally published as a special issue of Cultural Studies

**Globalized Finance and Varieties of Capitalism** H. van Zon, 2016-05-01 Hans van Zon analyzes the financialization of developed capitalism and argues that the emergence of finance as a dominant force has contributed to the relative decline of the West He demonstrates that the neo liberal model is inherently unstable and undermines capitalist economies which can only function if they are embedded in institutions that are non or even pre capitalist He shows how a toxic combination of financialization corporate globalization and a deregulated and parasitic financial industry have led to structural economic stagnation in both the USA and the greater part of the EU

**Human Geographies of Stellenbosch** Ronnie Donaldson, 2021-02-11 Amid a growing turn towards Southern cities South African urban geographers continue to remind us why and how to attend to local context and draw on theory from elsewhere Human Geographies of Stellenbosch Transforming Space Preserving Place edited by Ronnie Donaldson provides a deep look at crucial questions facing one of South Africa s most well known town cities Written from years of local knowledge by scholars at Stellenbosch University this volume asks what urban transformation means who it is for and the politically tantalising question of whether and how we might hold on to some of the old while aspiring towards the new In a global context in which we are all searching for how to justly remember our messy past how to decolonise and hold onto what makes places unique this volume will be of interest to scholars asking such questions in and beyond urban studies

**Comprehensive Geographic Information Systems**, 2017-07-21 Geographical Information Systems Three Volume Set is a computer system used to capture store analyze and display information related to positions on the Earth s surface It has the ability to show multiple types of information on multiple geographical locations in a single map enabling users to assess patterns and relationships between different information points a crucial component for multiple aspects of modern life and industry This 3 volumes reference provides an up to date account of this growing discipline through in depth reviews authored by leading experts in the field

**Revealing Change in Cultural Landscapes** Catherine Heatherington, 2020-09-21  
This book explores different design approaches to revealing change within a landscape and examines how landscape designers bring together the cultural context of a specific place with material spatial and ecological considerations  
Revealing Change in Cultural Landscapes includes case studies such as Gilles Clément's Jardin du Tiers Paysage in France the Brick Pit in Sydney Australia and Georges Descombes Renaturation of the River Aire in Switzerland to uncover the insights of designers  
In doing so Catherine Heatherington considers the different ways designers approach the revealing of change and how this informs a discussion about people's perceptions and understanding of landscape  
With over 100 images and contributions from Jacky Bowring Dermot Foley and Krystallia Kamvasinou this book will be beneficial for students of landscape and landscape architecture particularly those with an interest in how landscapes change over time and how this is perceived by both designers and visitors  
Why We Build With Brick Felicity Cannell, 2023-07-31  
This book focuses on the contemporary fired clay brick to explore themes of home and house homeownership materiality and sense of place  
It investigates why despite an increasing number of alternative materials brick remains at the forefront of what people in the UK in particular expect homes to be built of and how brick is indelibly entwined with what home means something materially stable and financially secure affording a located sense of place  
Through observation of the building process and interviews with bricklayers foremen planners developers and homebuyers in England Felicity Cannell traces the embedded meanings of a mundane ubiquitous artefact and reveals the tensions and contradictions in today's use of brick to signify the traditional home  
Although easing the planning process and leading to quick sales the way brick is used in mass market housing today considerably restricts its capacities notably decoration flexibility and strength the very qualities which have historically positioned this tremendously versatile material as the superlative building block  
Overall the book adds complexity to the study of home and prompts debate about

why we build the way we do      *Street-Level Architecture* Conrad Kickert,Hans Karssenberg,2022-08-04 This book provides the tools to maintain and rebuild the interaction between architecture and public space Despite the best intentions of designers and planners interactive frontages have dwindled over the past century in Europe and North America This book demonstrates why even our best intentions for interactive frontages are currently unable to turn a swelling tide of economic and technological evolution land consolidation introversion stratification and contagious decline It uses these lessons to offer concrete locational programming design and management strategies to maximize street level interaction and trust between street level architecture its inhabitants and the city This book demonstrates that designers developers planners and managers ultimately have to create the right preconditions for inhabitants and passersby to bring frontages to life These preconditions connect architecture to its urban social economical and technological context Only the right frontage in the right context with the right design the right inhabitation and the right attitude to the city will become part of the ecosystem of trust and interaction that supports public life This book empowers the many participants in this ecosystem to build inhabit and enjoy truly urbane architecture
