B. Anand, Shailaja Fennell, Flavio Comim, 2021 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and

human development Are inequalities increasing and is this the denouncement of the economic successes The Handbook of BRICS and Emerging Economies presents a comprehensive and multi faceted analysis of the BRICS countries and other emerging economies exploring their economic social environmental and governance dimensions and other challenges It brings together multi disciplinary perspectives from more than fifty authors to examine how education contributed to the emergence of BRICS how BRICS are impacting African economies and how other emerging economies including Chile Mexico Turkey and others in Africa and Central Asia compare It observes the impact of governance challenges both within individual countries and in the forum for co operation amongst them what issues related to gender and identity based violence are prevalent and what the security implications are and the role of BRICS is in contributing to peace keeping operations

Socio-Metabolic Perspectives on the Sustainability of Local Food Systems Eva Fraňková, Willi Haas, Simron J. Singh, 2018-01-09 This book delves into diverse local food systems and critically assesses their ecological and societal benefits and trade offs their limits and opportunities for improving sustainability of food production and framework conditions which either hinder or promote their development More and more people with gradually meat heavier diets will demand growth in food production whilst our increasingly industrialized and globalized agri food system has already caused serious sustainability problems in the past This calls for a change in the way we produce distribute and consume food A re emerging debate on food security and food sovereignty seems to support this quest But what are the promising alternatives to mainstream developments Such a discussion regarding sustainability of local food systems requires a sound systemic understanding and thus invites a socio metabolic reading of local cases by analyzing the nexus between material and energy flows as well as land and time use This approach is needed to complement the so far mostly qualitatively based local food studies Applying socio metabolic approaches to local food systems fosters a better understanding of promises and pitfalls for sustainable pathways in the future
