Michael J. Sullivan

Geography Paper One June Exam 2014 Memorandum:

States of Fragility 2016 Understanding Violence OECD, 2016-11-30 The world is getting more violent and violence is occurring in surprising places Over the past 15 years 3.34 billion people or almost half of the world's population have been affected by violence The number of violent conflicts is decreasing but conflicts are killing more people **Earned Citizenship** Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today The majority of unauthorized immigrants in the U.S. have been here for more than five years and are settling into American communities working forming families and serving in the military even though they may be detained and deported if they are discovered An open question remains as to what to do about unauthorized immigrants who are already living in the United States On one hand it is important that the government sends a message that future violations of immigration law will not be tolerated On the other sits a deeper ethical dilemma that is the focus of this book what do the state and citizens owe to unauthorized immigrants who have served their adopted country **Earned Citizenship** argues that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities Their service would act as restitution for immigration law violations Military service in particular would merit naturalization in countries with a strong citizen soldier tradition including the United States The book also considers the civic value of caregiving as a service to citizens and the country contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work As a whole **Earned Citizenship** provides a non humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation **Night Hunters** William Pace Head, 2014-03-18 In **Night Hunters** air power historian William P. Head provides the first detailed study of the development and deployment of the AC-130 gunship While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC-130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context One of the most important was the development of the AC-130 Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems of the 1970s or of any era By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror **Night Hunters** offers a clear view of the role of gunships and of close

air support in US wars In today s never ending brushfire wars the AC 130s continue to uphold their reputation for excellence
