Enterprise and Social Rights Adalberto Perulli, Tiziano Treu, 2017-06-15 Globalization has led to growing labour fragmentation and widening of gaps in social protection Although the enterprise is increasingly expected to be socially responsible in actuality extreme worker inequalities and social dumping have become ubiquitous worldwide This volume the first to focus attention on the theory of the firm as it reveals itself in today's world from a multidisciplinary perspective underscores the necessity to rebuild a new scientifically controlled paradigm that acknowledges and regulates the dimension of power in the functioning of the organization In their contributed essays nineteen renowned scholars in labour law and industrial relations rethink the firm its conception its value and its regulation analysing such aspects as the following labour management relations issues that arise when companies go global but workers remain local the firm as a social construction the continuing necessity for collective bargaining concealment of the employment relationship under the guise of self employment concealment of the real employer behind figureheads and shell companies social welfare effects of outsourcing the company's interaction with the network of suppliers and with local education processes determining who actually carries responsibility towards workers overcoming companies drive to enter the global market in response to national regulation realizing the notion of duty of care mechanisms of participation of workers in the management of the enterprise and the persistent limitations that women face in the workplace even when worker participation is advocated With attention to innovative developments in Germany Italy Japan and other countries analyses include case studies of specific companies as well as case law in particular the European Court of Justice's jurisprudence in matters of collective dismissals seconded workers and public contracts In their head on tackling of the fragmentation and blurring of social responsibility in

enterprise organization these important essays propose a view of the enterprise as a factor in a new constitutionalisation of labour that shifts employment protection from single legal entities to the network s economic activity thus realigning the legal boundaries of the enterprise with its economic reality As a compelling investigation of how a satisfactory implementation of labour standards in the fragmented enterprise can be guaranteed this book will be studied by entrepreneurs managers consultants corporate lawyers judges human rights experts and trade unionists and will be welcomed by academics and researchers in industrial relations and labour law

The Populist Temptation Barry Eichengreen, 2018-05-03 Populism of the right and left has spread like wildfire throughout the world The impulse reached its apogee in the United States with the election of Trump but it was a force in Europe ever since the Great Recession sent the European economy into a prolonged tailspin In the simplest terms populism is a political ideology that vilifies economic and political elites and instead lionizes the people The people populists of all stripes contend need to retake power from the unaccountable elites who have left them powerless And typically populists distrust of elites shades into a catchall distrust of trained experts because of their perceived distance from and contempt for the people Another signature element of populist movements is faith in a savior who can not only speak directly to the people but also serve as a vessel for the plain people s hopes and dreams Going back to the 1890s a series of such saviors have come and gone in the US alone from William Jennings Bryan to Huey Long to finally Donald Trump In *The Populist Temptation* the eminent economic historian Barry Eichengreen focuses on the global resurgence of populism today and places it in a deep context Alternating between the present and earlier populist waves from modern history he argues that populists tend to thrive most in the wake of economic downturns when it is easy to convince the masses of elite malfeasance Yet while there is more than a grain of truth that bankers financiers and bought politicians are responsible for the mess populists own solutions tend to be simplistic and economically counterproductive Moreover by arguing that the ordinary people are at the mercy of extra national forces beyond their control international capital immigrants cosmopolitan globalists populists often degenerate into demagoguery and xenophobia There is no one solution to addressing the concerns that populists raise but Eichengreen argues that there is an obvious place to start shoring up and improving the welfare state so that it is better able to act as a buffer for those who suffer most during economic slumps For example America s patchwork welfare state was not well equipped to deal with the economic fallout that attended globalization and the decline of manufacturing in America and that played no small part in Trump s victory Lucidly explaining both the appeals and dangers of populism across history this book is essential reading for anyone seeking to understand not just the populist phenomenon but more generally the lasting political fallout that follows in the wake of major economic crises

Vagrant Nation Risa Lauren Goluboff, 2016 In *Vagrant Nation* Risa Goluboff has found a way to explain how the interaction between 1960s social movements and the courts fundamentally changed both American law and society writ large By look at the changing views regarding a minor type of crime vagrancy Goluboff shows how the

courts were cast directly into the midst of the turmoil sweeping the nation

The CIA Intelligence Analyst Roger Z George, Robert Levine, 2024-09-02 A unique insiders account of what CIA intelligence analysts do and why it matters The common perception of a CIA officer is someone who collects secret intelligence abroad a spy However the critical link between secrets and policy is the intelligence analyst The CIA Intelligence Analyst brings to light the vital but often unseen work of these officers Roger Z George Robert Levine and the contributors to this book demystify the profession of intelligence analyst at the CIA and describe how the wide array of analytic specialties or disciplines in the language of the CIA function The disciplines range from political economic leadership and military matters to science and technology cyber counterterrorism and counterintelligence Each of the chapters written by former or current CIA analysts discusses how analysts interact with those who collect raw intelligence Just as important the chapters describe the relationships analysts develop with the diverse set of policymakers who use CIA analyses The contributors reveal the key intelligence questions that analysts address their methods their products and their challenges This book will be an invaluable resource for scholars of national security and intelligence who want to develop a fuller picture of the internal workings of the CIA and for those who are considering a career as an analyst

Colombia's Forgotten Frontier Lesley Wylie, 2013-10-28 The first literary geography of the Putumayo exploring its history and enduring significance through literature of and on this Colombian region by Latin American US and European writers

The Changing Practices of International Law Tanja Aalberts, Thomas Gammeltoft-Hansen, 2018-04-05 With more than 158 000 treaties and some 125 judicial organisations international law has become an inescapable factor in world politics since the Second World War In recent years however international law has also been increasingly challenged as states are voicing concerns that it is producing unintended effects and accuse international courts of judicial activism This book provides an important corrective to existing theories of international law by focusing on how states respond to increased legalisation and rely on legal expertise to manoeuvre within and against international law Through a number of case studies covering a wide range of topical issues such as surveillance environmental regulation migration and foreign investments the book argues that the expansion and increased institutionalisation of international law itself have created the structural premise for this type of politics of international law More international law paradoxically increases states political room of manoeuvre in world society

Mastering the Niger David Lambert, 2013-11-15 In *Mastering the Niger* David Lambert recalls Scotsman James MacQueen 1778 1870 and his publication of *A New Map of Africa* in 1841 to show that Atlantic slavery as a practice of subjugation a source of wealth and a focus of political struggle was entangled with the production circulation and reception of geographical knowledge The British empire banned the slave trade in 1807 and abolished slavery itself in 1833 creating a need for a new British imperial economy Without ever setting foot on the continent MacQueen took on the task of solving the Niger problem that is to successfully map the course of the river and its tributaries and thus breathe life into his scheme for the exploration

colonization and commercial exploitation of West Africa Lambert illustrates how MacQueen's geographical research began four decades before the publication of the New Map when he was managing a sugar estate on the West Indian colony of Grenada There MacQueen encountered slaves with firsthand knowledge of West Africa whose accounts would form the basis of his geographical claims Lambert examines the inspirations and foundations for MacQueen's geographical theory as well as its reception arguing that Atlantic slavery and ideas for alternatives to it helped produce geographical knowledge while geographical discourse informed the struggle over slavery

Special Providence Walter Russell Mead, 2013-05-13 God has a special providence for fools drunks and the United States of America Otto von Bismarck America's response to the September 11 attacks spotlighted many of the country's longstanding goals on the world stage to protect liberty at home to secure America's economic interests to spread democracy in totalitarian regimes and to vanquish the enemy utterly One of America's leading foreign policy thinkers Walter Russell Mead argues that these diverse conflicting impulses have in fact been the key to the U.S.'s success in the world In a sweeping new synthesis Mead uncovers four distinct historical patterns in foreign policy each exemplified by a towering figure from our past Wilsonians are moral missionaries making the world safe for democracy by creating international watchdogs like the U.N. Hamiltonians likewise support international engagement but their goal is to open foreign markets and expand the economy Populist Jacksonians support a strong military one that should be used rarely but then with overwhelming force to bring the enemy to its knees Jeffersonians concerned primarily with liberty at home are suspicious of both big military and large scale international projects A striking new vision of America's place in the world *Special Providence* transcends stale debates about realists vs idealists and hawks vs doves to provide a revolutionary nuanced historically grounded view of American foreign policy

The Oxford Handbook of the Cold War Richard H. Immerman, Petra Goedde, 2013-01-31 *The Oxford Handbook of the Cold War* offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history Nearing the 25th anniversary of its end the cold war now emerges as a distinct period in twentieth century history yet one which should be evaluated within the broader context of global political economic social and cultural developments The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify fundamental questions for future research The individual chapters in this volume evaluate both the extent and the limits of the cold war's reach in world history They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict Even though each essay offers a unique perspective together they show the interconnectedness between cold war and national and transnational developments including long standing conflicts that preceded the cold war and persisted after its end or global transformations in areas such as human rights or economic and cultural globalization Because of its broad mandate the volume is structured not along conventional chronological lines but thematically offering essays on conceptual frameworks regional perspectives cold war instruments and cold war challenges

The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history *Encyclopedia of Nineteenth-Century Photography* John Hannavy,2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide

Chiefs of Industry Hazel Petrie,2013-10-01 Drawing on a wide range of sources in both English and Maori this study explores the entrepreneurial activity of New Zealand s indigenous Maori in the early colonial period Focusing on the two industries coastal shipping and flourmilling where Maori were spectacularly successful in the 1840s and 1850s this title examines how such a society was able to develop capital intensive investments and harness tribal ownership quickly and effectively to render commercial advantages A discussion of the sudden decline in the golden age of Maori enterprise from changing market conditions to land alienation is also included *Crime Analysis with Crime Mapping* Rachel Boba Santos,2022-02-07 Crime Analysis With Crime Mapping Fifth Edition provides students and practitioners with a solid introduction to the conceptual nature and practice of crime analysis and how it assists police in crime reduction Author Rachel Boba Santos delves into this emerging field providing guidelines and techniques for conducting crime analysis supported by evidence based research real world application and recent innovations in the field As the only introductory core text for crime analysis this must have resource presents readers with opportunities to apply theory research methods and statistics to careers that support and enhance the effectiveness of modern policing **Utilities Reform in Twenty-First Century Australia** Malcolm Abbott,Bruce Cohen,2021-07-01 Utilities Reform in 21st Century Australia Providing the Essentials traces the development and consequences of the economic reform measures undertaken in the utilities sector in Australia communications energy water wastewater services and transport in the last years of the 20th century and early decades of the 21st century In doing so it looks at the process of reform across industries and across the state and federal jurisdictions to identify what motivations the various governments had for pursuing reform how change varied across jurisdictions and what issues arose in the process Although by the mid 1990s all states and territories and the Australian Government were committed to reforming utilities as part of the National Competition Policy not all pursued this reform with

the same degree of speed and breadth of action The broad trends of economic reform in Australia and abroad are also touched upon to provide an outline of the wider context in which the reform of the utilities occurred This book therefore explores the relationship between politics and society on the one hand and economic reform on the other as well on as the efforts of governments in Australia to promote economic growth and the wealth of Australians in an increasingly complex and challenging global economic climate

Australians at Geneva James Cotton,2022-11-01 After the dubious justice of the Treaty of Versailles and the turmoil of the interwar years the League of Nations is mainly remembered as a body that failed to create mechanisms that might have forestalled the horrors of Nazism fascism and the Second World War It has understandably been overshadowed by the United Nations that larger more globally representative body which grew from the League and which was founded on more unequivocally noble principles in the aftermath of a clear cut victory of good over evil But as the limitations of the United Nations become ever more apparent we can look with more sympathy at the League and consider what we might learn from the endeavours of those driving this first attempt at global governmental coordination As James Cotton relates in this illuminating account a surprising number of Australians lent their talents and enthusiasm to this internationalist project and Australian interests were prominently represented Former Prime Minister Stanley Bruce was there along with numerous other Australian men and women who made important contributions to international deliberations on questions of global organisation and interaction This deeply researched and carefully realised story will recast understandings of both the League itself and the place within it of prominent interwar Australian internationalists

Mapping the End of Empire Aiyaz Husain,2014-04-14 By the end of World War II strategists in Washington and London looked ahead to a new era in which the United States shouldered global responsibilities and Britain concentrated its regional interests more narrowly The two powers also viewed the Muslim world through very different lenses Mapping the End of Empire reveals how Anglo American perceptions of geography shaped postcolonial futures from the Middle East to South Asia Aiyaz Husain shows that American and British postwar strategy drew on popular notions of geography as well as academic and military knowledge Once codified in maps and memoranda these perspectives became foundations of foreign policy In South Asia American officials envisioned an independent Pakistan blocking Soviet influence an objective that outweighed other considerations in the contested Kashmir region Shoring up Pakistan meshed perfectly with British hopes for a quiescent Indian subcontinent once partition became inevitable But serious differences with Britain arose over America s support for the new state of Israel Viewing the Mediterranean as a European lake of sorts U S officials even in parts of the State Department linked Palestine with Europe deeming it a perfectly logical destination for Jewish refugees But British strategists feared that the installation of a Jewish state in Palestine could incite Muslim ire from one corner of the Islamic world to the other As Husain makes clear these perspectives also influenced the Dumbarton Oaks Conference and blueprints for the UN Security Council and shaped French and Dutch colonial fortunes in the Levant and the

East Indies **The map of Gauteng: evolution of a city-region in concept and plan** Allan Mabin, 2013-07-26

The mission of the Gauteng City Region Observatory GCRO is to help illuminate trends and dynamics shaping the region of towns and cities in and around Gauteng and also enhance understanding of the idea of the Gauteng City Region GCR as a project a different way of thinking about and governing this space While much of the data collection and analysis work of the GCRO is focused on the present we also consider the city region s past and its possible futures A 2030 National Development Plan crafted by the National Planning Commission has recently been adopted In addition the Gauteng Provincial Government working with municipal partners and business civil society and labour stakeholders is drafting a G2055 long term development plan As our society looks forward to what sort of country and region we need to become it is also important to look backward Understanding the past gives us insights into how we have come to be where we are now and so in turn what paths we should tread into the future This Occasional Paper is one of two that GCRO has commissioned specifically to deepen our understanding of the past of the GCR Both focus on aspects of the region s spatial past and ought to be read together This paper by Alan Mabin explores how the idea of a city region found expression in various statutory planning frameworks over the course of the last century and how embryonic cityregion concepts influenced spatial decisions and developments The companion paper by Brian Mubiwa and Harold Annegarn considers the different but related issue of the actual historical spatial evolution of the GCR It examines key spatial changes that have shaped the region over a century and provides a remarkable picture based on satellite imagery of regional spatial growth in the last two decades
