**The U.S.-China Military Scorecard** Eric Heginbotham, Michael Nixon, Forrest E. Morgan, Jacob L. Heim, Jeff Hagen, Sheng Li, Jeffrey Engstrom, Martin C. Libicki, Paul DeLuca, David A. Shlapak, David R. Frelinger, Burgess Laird, Kyle Brady, Lyle J. Morris, 2015-09-14 A RAND study analyzed Chinese and U S military capabilities in two scenarios Taiwan and the Spratly Islands from 1996 to 2017 finding that trends in most but not all areas run strongly against the United States While U S aggregate power remains greater than China s distance and geography affect outcomes China is capable of challenging U S military dominance on its immediate periphery and its reach is likely to grow in the years ahead **Earned Citizenship** Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today The majority of unauthorized immigrants in the U S have been here for more than five years and are settling into American communities working forming families and serving in the military even though they may be detained and deported if they are discovered An open question remains as to what to do about unauthorized immigrants who are already living in the United States On one hand it is important that the government sends a message that future violations of immigration law will not be tolerated On the other sits a deeper ethical dilemma that is the focus of this book what do the state and citizens owe to unauthorized immigrants who have served their adopted country Earned Citizenship argues that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities Their service would act as restitution for immigration law violations Military service in particular would merit naturalization in countries with a strong citizen soldier tradition including the United States The book also considers the civic value of caregiving as a service to citizens and the country contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work As a whole Earned Citizenship provides a non humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation *After the Education Wars* Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives

informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well. These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up. Lessons also learned from both the open source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform. After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.

**The Middle and Upper Paleolithic Archeology of the Levant and Beyond** Yoshihiro Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern Humans which took place between November 30 and December 6 2014 in Hokkaido Japan. Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans. The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond. The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia. The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions. This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia.

**Energy and Water Development Appropriations for 2014** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2013

*Affective Connections* Dorota Golanska, 2017-12-20 Inspired by the philosophical framework of Deleuze and Guattari in relation to affect *Affective Connections* disavows the dominant oppositional discourse around representation to offer an affirmative approach to perception cognition and experience. It advances a new materialist concept of synaesthetic perception where synaesthesia is understood as a union of senses. This idea offers a new figuration for thinking about our cognition exploring the role of embodied experience and the agency of matter in the production of knowledge. Looking at a number of memorials memory sites and artworks relating to the Holocaust the book uses this idea of synaesthetic perception to explore trauma memory and the production of art in relation to painful memories. In doing so it demonstrates that modes of interacting with the past and encountering the lived experience of trauma can trigger a deeper understanding of these events and produce more complex

forms of affective connections It proposes a shift away from empathy towards sympathy understood in new materialist terms not just as a sentimental response to trauma but as an affective notion that allows for a more comprehensive grasp of experiences of discrimination exclusion suffering or pain

**The Struggle for Change** Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond's racial politics since the civil rights era by demonstrating that the city's current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond's racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans

**The Geopolitics of Spectacle** Natalie Koch, 2018-06-15 Why do autocrats build spectacular new capital cities In *The Geopolitics of Spectacle* Natalie Koch considers how autocratic rulers use spectacular projects to shape state society relations but rather than focus on the standard approach on the project itself she considers the unspectacular others The contrasting views of those from the poorest regions toward these new national capitals help her develop a geographic approach to spectacle Koch uses Astana in Kazakhstan to exemplify her argument comparing that spectacular city with others from resource rich nondemocratic nations in central Asia the Arabian Peninsula and Southeast Asia *The Geopolitics of Spectacle* draws new political geographic lessons and shows that these spectacles can be understood only from multiple viewpoints sites and temporalities Koch explicitly theorizes spectacle geographically and in so doing extends the analysis of governmentality into new empirical and theoretical terrain With cases ranging from Azerbaijan to Qatar and Myanmar and an intriguing account of reactions to the new capital of Astana from the poverty stricken Aral Sea region of Kazakhstan Koch's book provides food for thought for readers in human geography anthropology sociology urban studies political science international affairs and post Soviet and central Asian studies

**Postwar** Laura McEnaney, 2018-09-07 When World War II ended Americans celebrated a military victory abroad but the meaning of peace at home was yet to be defined From roughly 1943 onward building a postwar society became the new national project and every interest group involved in the war effort from business leaders to working class renters held different visions for the war's aftermath In *Postwar* Laura McEnaney plumbs the depths of this period to explore exactly what peace meant to a broad swath of civilians including apartment dwellers single women and housewives newly freed Japanese American internees African American migrants and returning veterans In her fine grained social history of postwar Chicago McEnaney puts ordinary working class people at the center of her investigation What she finds is a working class war liberalism a conviction that the wartime state had taken things from people and that

the postwar era was about reclaiming those things with the state's help McEnaney examines vernacular understandings of the state exploring how people perceived and experienced government in their lives For Chicago's working class residents the state was not clearly delineated The local offices of federal agencies along with organizations such as the Travelers Aid Society and other neighborhood welfare groups all became what she calls the state in the neighborhood an extension of government to serve an urban working class recovering from war Just as they had made war the urban working class had to make peace and their requests for help large and small constituted early dialogues about the role of the state during peacetime Postwar examines peace as its own complex historical process a passage from conflict to postconflict that contained human struggles and policy dilemmas that would shape later decades as fatefully as had the war

**Corporate Criminal Liability in Environmental Jurisprudence** Indrajit Dube, Mia Mahmudur Rahim, 2025-09-08 Environmental jurisprudence is a dynamic field that integrates insights from various disciplines including basic sciences earth science economics and law At its core this discipline emphasizes the importance of enforcing rights as environmental pollution poses significant threats to individuals and society as a whole The repercussions of pollution are not confined to the immediate vicinity they can reverberate across vast regions and impact countless future generations Addressing pollution as a wrong or crime demands a nuanced understanding of the law making the study of environmental jurisprudence essential This book explores corporate polluter liability within the framework of environmental jurisprudence While protective measures for the environment have been embedded in various statutes since the early 20th century the notion of environmental jurisprudence has only recently come to the forefront of legal discourse This field is crucial for safeguarding the natural and legal rights of individuals communities and the state With a comprehensive approach that encompasses both national and international dimensions this book critically engages with the foundational concepts of environmental jurisprudence exposing the rampant environmental violations perpetrated by corporations and outlining how these entities can be held accountable within regulatory frameworks Furthermore it provides a thorough analysis of essential international instruments aimed at combatting corporate induced environmental degradation offering recommendations to elevate corporate criminal liability within the realm of environmental jurisprudence scholarship Highlighting the urgent need for accountability but also inspiring action toward a sustainable future this book will interest legal scholars researching on criminal liability and environmental law

**Rivers and Sustainable Development** S. Nazrul Islam, 2020-08-15 Rivers are a vital component of ecology the earth's hydrological cycle depends on them However across the world rivers are under stress and even in crisis With rising populations the demand for river water is increasing Many rivers fail to reach the sea because of excessive withdrawal of water and many other rivers are heading toward the same fate Conflicts over river water are increasing and climate change is making matters worse River policies pursued so far are often aggravating these challenges rather than solving them Yet sustainable development requires healthy rivers Urgent change in the approach and policies toward rivers is therefore required In this book Nazrul Islam points to the ways in which river policies need to change to ensure sustainable development He offers a new conceptual framework using such concepts as the Commercial and Cordon approaches to rivers and their opposite the Ecological and Open approaches He shows that while the former generally work against sustainability the latter are conducive to sustainable development The book illustrates this reality by drawing upon worldwide experience regarding rivers Going forward river policies therefore should be based on Ecological and Open approaches Islam argues further that the use of the new conceptual framework offered in this book can help to connect the river related discussion of experts with that of activists It can thus help to move the discussion of river policies from the narrow confines of experts to the wider arena of the public who should have a greater role in formulation of river policies in order to safeguard public interests and ensure sustainability The book serves as a valuable guide for those interested in learning about river policy changes necessary to promote sustainable development

**The Crisis of Israel's Democracy, 1948-2025** Ilan Peleg, Ruth Amir, 2025-07-10 *The Crisis of Israel's Democracy 1948-2025* Origins Developments and Consequences focuses on Israeli democracy its deep historical origins development over seven decades long term consequences and possible resolutions While most commentaries on Israel's crisis focus on the proposals for judicial reform by the Netanyahu government this study focuses on what it identifies as the fundamental problems of the Israeli regime its ethnonational rather than liberal democratic form its lack of a written constitution undermines the country's deeply divided society the greatly dysfunctional relations between the secular majority and the sizeable Orthodox minority and above all the seemingly permanent occupation of the Palestinian inhabited West Bank Peleg and Amir offer a broad perspective on these

causes covering the historical failures of the country's founders an analysis of Israel's constitutional order and regime type commentary on sociopolitical cleavages and the dominant social psychology of Israelis and analysis of the charismatic populism of longtime Israeli prime minister Benjamin Netanyahu The volume concludes with analyzing future scenarios and possible solutions for Israel's democratic crisis The Crisis of Israel's Democracy offers the most comprehensive analysis of Israel's democratic backsliding to date comparing it to similar worldwide processes *Nuclear Science Abstracts*, 1973

**The Future of Unmanned Aviation in the U.S. Economy** United States. Congress. Senate. Committee on Commerce, Science, and Transportation, 2015 The Neoliberal City Jason Hackworth, 2014-01-15 The shift in the ideological winds toward a free market economy has brought profound effects in urban areas The Neoliberal City presents an overview of the effect of these changes on today's cities The term neoliberalism was originally used in reference to a set of practices that first world institutions like the IMF and World Bank impose on third world countries and cities The support of unimpeded trade and individual freedoms and the discouragement of state regulation and social spending are the putative centerpieces of this vision More and more though people have come to recognize that first world cities are undergoing the same processes In The Neoliberal City Jason Hackworth argues that neoliberal policies are in fact having a profound effect on the nature and direction of urbanization in the United States and other wealthy countries and that much can be learned from studying its effect He explores the impact that neoliberalism has had on three aspects of urbanization in the United States governance urban form and social movements The American inner city is seen as a crucial battle zone for the wider neoliberal transition primarily because it embodies neoliberalism's antithesis Keynesian egalitarian liberalism Focusing on issues such as gentrification in New York City public housing policy in New York Chicago and Seattle downtown redevelopment in Phoenix and urban landscape change in New Brunswick N J Hackworth shows us how material and symbolic changes to institutions neighborhoods and entire urban regions can be traced in part to the rise of neoliberalism **Energy and Water**

**Development Appropriations for 2015** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2014 *Night Hunters* William Pace Head, 2014-03-18 In *Night Hunters* air power historian William P Head provides the first detailed study of the development and deployment of the AC 130 gunship While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC 130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context One of the most important was the development of the AC 130 Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems

of the 1970s or of any era By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror Night Hunters offers a clear view of the role of gunships and of close air support in US wars In today s never ending brushfire wars the AC 130s continue to uphold their reputation for excellence

Restraint Barry R. Posen, 2014-06-03 The United States Barry R Posen argues in *Restraint* has grown incapable of moderating its ambitions in international politics Since the collapse of Soviet power it has pursued a grand strategy that he calls liberal hegemony one that Posen sees as unnecessary counterproductive costly and wasteful Written for policymakers and observers alike *Restraint* explains precisely why this grand strategy works poorly and then provides a carefully designed alternative grand strategy and an associated military strategy and force structure In contrast to the failures and unexpected problems that have stemmed from America s consistent overreaching Posen makes an urgent argument for restraint in the future use of U S military strength After setting out the political implications of restraint as a guiding principle Posen sketches the appropriate military forces and posture that would support such a strategy He works with a deliberately constrained notion of grand strategy and even more important of national security which he defines as including sovereignty territorial integrity power position and safety His alternative for military strategy which Posen calls command of the commons focuses on protecting U S global access through naval air and space power while freeing the United States from most of the relationships that require the permanent stationing of U S forces overseas

*Another Modernism* Anna Myjak-Pycia, 2025-06-12 Filling an important gap in design history *Another Modernism* examines how domestic space was conceived by the US home economics movement in the first half of the 20th century In doing so it tells the story of how home economists mainly women developed design that challenged the traditional architecture of American farm communities and countered the approach of modernist architects Uncovering unacknowledged contributions of women to domestic architecture and design history it reveals early instances of participation sustainability and accommodating the disabled body in domestic design In contrast to the canonical modernist model of space which is primarily visual home economists centered on a user who interacts with the interior in a tactile bodily way Although both strove for efficiency they understood it differently whereas for many of the mainstream modernists the term efficiency meant functionalist aesthetics for home economists it signified design solutions intended to ease the labor of an average American homemaker The book argues that the home economists focus on tactility the user s corporeality movement access preferences and her engagement in the design process constituted an alternative model of modern architecture a popular and largely rural modernism centered on the specificity of the female user and her personal experience of the domestic interior Based on little known archival material and with an emphasis on mostly female researchers designers and users occupants *Another Modernism* will appeal to architects design historians and anyone interested in gender women s and disability studies as well as non visual approaches to design
