1. Why was it significant that George Washington, a Virginian, was selected to be the commander of the Continental Army? (as opposed to a New Englander)
2. Why did the colonists feel it was important to formally declare independence from Great Britain even though New England was already at war with Britain?
3. The Declaration of Independence did not include an abolishment of slavery even though most people in the colonies felt it was wrong to transport Africans against their will to work without freedom. Why did colonists agree not to free slaves in the Declaration of Independence despite Jefferson's call for the "right of life, liberty, and the pursuit of happiness"? Give reasons for both the North and the South.
4. Though the formal army of the colonists was smaller, weaker, less experienced, and less skilled than the British, how did the colonists prove early on that they would put up a strong fight during the American Revolution?
5. Why was the Battle of Saratoga a turning point in the war for the Americans? What did the British learn from this battle? What did the French learn? The Americans? The Indians?
6. Why was the South important to the British? How did the colonial "guerrillas" help keep the British from taking the south and marching north?
7. How did the French help the Americans and force Cornwallis's surrender?

Agency Ian V. Rowe, 2022-05-16 Every child in America deserves to know that a path to a successful life exists and that they have the power to follow it But many never set foot on that path because they grow up hearing the message that systemic forces control their destinies or that they are at fault for everything that has gone wrong in their lives These children often come from difficult circumstances Many are raised by young single parents live in disadvantaged neighborhoods attend substandard schools and lack the moral safeguards of religious and civic institutions As a result they can be dispirited into cycles of learned helplessness rather than inspired to pursue their own possibilities Yet this phenomenon is not universal Some children thrive where others do not Why Are there personal behaviors and institutional supports that have proven to make a difference in helping young people chart a course for their futures Agency answers with a loud and clear yes This book describes four pillars that can uplift every young person as they make the passage into adulthood Family Religion Education and Entrepreneurship Together these pillars embody the true meaning of freedom wherein people are motivated to embrace the ennobling responsibilities of building healthy social structures and shaping the outcomes of their own lives For that reason Ian Rowe calls the four pillars the FREE framework With this framework in place children are empowered to develop agency which Rowe defines as the force of one's free will guided by moral discernment Developing agency is the alternative to the debilitating blame the system and blame the victim narratives It transcends our political differences and beckons all who dare to envision lives unshackled by present realities In addition to making the case for agency Rowe shares his personal story of success coming from an immigrant family He defends America as an ever improving country worthy of our esteem He corrects misguided calls for anti racism and equity and champions a game plan for creating new agents of agency dedicated to promoting the aspirational spirit of America's children and showing them the path that will set them FREE
