Sixty-five percent of U.S. fourth graders are not proficient readers because their teachers have not been taught how to teach reading using evidence-based methods. Up to 20% of children have dyslexia. Few receive the individualized teaching they need from their schools. To help parents and teachers who want to teach their children using an evidence-based effective method, Pamela Brookes, the mother of a child with dyslexia, discusses their daily routine as she teaches her daughter to read using the decodable *DOG ON A LOG* Books series. As the author of *DOG ON A LOG* Books, Pamela also shares how to choose where in the series to start. She shares how she teaches each of the phonics rules used in the book series along with the reasons for teaching the syllable types and handwriting. Although this booklet is meant to guide parents and teachers using *DOG ON A LOG* Books, the information can be adapted and applied to any systematic series of decodable books. *How to Use Decodable Books to Teach Reading* is edited by Dr. Nancy Mather, a professor in learning disabilities reading and writing, to make sure it follows the scientific research on
