Possessing Polynesians Maile Renee Arvin, 2019-11-08 From their earliest encounters with Indigenous Pacific Islanders white Europeans and Americans asserted an identification with the racial origins of Polynesians declaring them to be racially almost white and speculating that they were of Mediterranean or Aryan descent In Possessing Polynesians Maile Arvin analyzes this racializing history within the context of settler colonialism across Polynesia especially in Hawai i Arvin argues that a logic of possession through whiteness animates settler colonialism by which both Polynesia the place and Polynesians the people become exotic feminized belongings of whiteness Seeing

whiteness as indigenous to Polynesia provided white settlers with the justification needed to claim Polynesian lands and resources Understood as possessions Polynesians were and continue to be denied the privileges of whiteness Yet Polynesians have long contested these classifications claims and cultural representations and Arvin shows how their resistance to and refusal of white settler logic have regenerated Indigenous forms of recognition

Systemic Risk, Institutional Design, and the Regulation of Financial Markets Anita Anand,2016-11-24 Following the recent financial crisis regulators have been preoccupied with the concept of systemic risk in financial markets believing that such risk could cause the markets that they oversee to implode At the same time they have demonstrated a certain inability to develop and implement comprehensive policies to address systemic risk This inability is due not only to the indeterminacy inherent in the term systemic risk but also to existing institutional structures which because of their existing legal mandates

ultimately make it difficult to monitor and regulate systemic risk across an entire economic system Bringing together leading figures in the field of financial regulation this collection of essays explores the related concepts of systemic risk and institutional design of financial markets responding to a number of questions In terms of systemic risk what precisely is the problem and what can be done about it How should systemic risk be regulated What should be the role of the central bank banking authorities and securities regulators Should countries implement a macroprudential regulator If not how is macroprudential regulation to be addressed within their respective legislative schemes What policy mechanisms can be employed when developing regulation relating to financial markets A significant and timely examination of one of the most intractable challenges posed to financial regulation *Petersburg to Appomattox* Caroline E. Janney, 2018-03-14 The last days of fighting in the Civil War's eastern theater have been wrapped in mythology since the moment of Lee's surrender to Grant at Appomattox Court House War veterans and generations of historians alike have focused on the seemingly inevitable defeat of the Confederacy after Lee's flight from Petersburg and recalled the generous surrender terms set forth by Grant thought to facilitate peace and to establish the groundwork for sectional reconciliation But this volume of essays by leading scholars of the Civil War era offers a fresh and nuanced view of the eastern war's closing chapter Assessing events from the siege of Petersburg to the immediate aftermath of Lee's surrender Petersburg to Appomattox blends military social cultural and political history to reassess the ways in which the war ended and examines anew the meanings attached to one of the Civil War's most significant sites Appomattox Contributors are Peter S Carmichael William W Bergen Susannah J Ural Wayne Wei Siang Hsieh William C Davis Keith Bohannon Caroline E Janney Stephen Cushman and Elizabeth R Varon
